FOR IMMEDIATE RELEASE

## CRD Emergency Response Continues at Normal Level

*285 firefighters currently on active rosters across Cariboo Regional District*

WILLIAMS LAKE –The announcement of a vaccine requirement for Cariboo Regional District volunteer fire fighters was met with broad acceptance across the region and vocal opposition in some communities -- as some members chose not to disclose their vaccination status. We understand and respect their decision and thank all volunteer firefighters, regardless of their vaccination status, for the important work they do.

The majority of volunteer firefighters in the CRD have now met the vaccination requirement. All volunteer halls are ready to respond to emergency call outs. The current roster strength in the region as of January 27, 2022, is provided below:
