HEALTH CARE, CANADIAN BROADCASTING CORPORATION, TRANSLINK
(BRITISH COLUMBIA)

DEFENDANTS

AFFIDAVIT

I, Rebecca Hill, of 1301-865 Hornby Street, in the City of Vancouver, in the Province of
British Columbia, AFFIRM THAT:

1. I am a paralegal with the Ministry of Attorney General, Legal Services Branch,
and am assisting Mark Witten, counsel for the Defendants, Her Majesty the Queen in

Right of the Province of British Columbia, Dr. Bonnie Henry, Premier John Horgan, Adrian Dix (Minister of Health), Jennifer Whiteside (Minister of Education), Mable Elmore (Parliamentary Secretary For Seniors Services) and Mike Farnworth (Minister of Public Safety and Solicitor General, (collectively, the "Province"), in the above captioned proceedings. As such, I have personal knowledge of the matters deposed to except where such are stated to be based on information and belief, in which case, I verily believe them to be true.

Action4Canada Website Information

2. On November 30, 2021, I visited the website www.Action4Canada.com which I understand to be a website created and maintained by the Action4Canada, a Plaintiff in the above referenced proceeding (the "Action4Canada Site").

3. Attached and marked as **Exhibit "A"** is a true copy of a printout of the main page of the Action4Canada Site, obtained by me on November 30, 2021.

4. Attached and marked as **Exhibit "B"** is a true copy of a printout of the "Donate" page from the Action4Canada Site, obtained by me on November 30, 2021.

5. Attached and marked as **Exhibit "C"** is a true copy of a printout of the "The House of COVID keeps on Falling" page from the Action4Canada Site, obtained by me on November 30, 2021.

6. Attached and marked as **Exhibit "D"** is a true copy of a printout of the "Action4Canada: Statement of Claim FILED" page from the Action4Canada Site on November 30, 2021.

Notices of Liability

7. Attached and marked as **Exhibit "E"** is a true copy of a printout of the "Notices of Liability" page from the Action4Canada Site, obtained by me on November 30, 2021.

8. Attached and marked as **Exhibit "F"** is a true copy of the "Employer Vaccine Notice of Liability" page from the Action4Canda Site along with a copy of the blank

form and an instruction page for completion and service, obtained by me on November 30, 2021.

9. Attached and marked as **Exhibit "G"** is a true copy of the "Elected Officials Vaccine Notice of Liability" page from the Action4Canada Site along with a copy of the blank form and an instruction page for completion and service, obtained by me on November 30, 2021.

10. Between August and December 2021, our office was provided with copies of approximately seventy (70) Vaccine Notices of Liability to Employers in the template provided on the Action4Canada Site, which had been sent by employees to representatives of various BC government agencies and ministries. Attached and collectively marked as **Exhibit "H"** is a sample of twenty (20) completed Vaccine Notices of Liability to Employers and, where provided, accompanying emails.

11. Between August and December 2021, our office was provided with copies of approximately one hundred ten (110) Vaccine Notices of Liability to Elected/Appointed Officials in the template provided on the Action4Canada Site, which had been sent to representatives of various BC government agencies and ministries. Attached and collectively marked as **Exhibit "I"** is a sample of twenty (20) completed Vaccine Notices of Liability to Elected/Appointed Officials, and, where provided, accompanying emails.

12. Between August and December 2021, our office was provided with copies of approximately five (5) letters in a template provided on the Action4Canada Site, with the subject line "Threat to use an experimental injection as a term of employment." Attached and collectively marked as **Exhibit "J"** is a copy of those letters, and, where provided, accompanying emails.

Other Material

13. On November 30, 2021, I conducted an internet search using www.Google.com for a Twitter account related to the name "Rocco Galati". As a result of that search, I was able to access a Twitter account under the name @roccogalatilaw. Attached and marked as **Exhibit "K"** are true copies of screenshots taken by me of postings from the Twitter

account @roccogalatilaw on November 30, 2021 for the period August 10 – September 1, 2021.

14. Exhibits “H”, “I” and “J” have been redacted to remove the personal information of the senders.

August 26, 2021

Action4Canada Statement of Claim FILED!

Action4Canada and the Constitutional Rights Centre are very pleased to announce that the Statement of Claim for the BC/Federal legal action has been filed.

On August 16th, 2021, **Action4Canada** formally filed legal action in the BC Supreme Court, to hold multiple parties accountable for their actions with respect to COVID-19 measures. The defendants include: the Government of Canada, the Government of British Columbia, various public health officers, the Canadian Broadcasting Corporation, and others. **Action4Canada** is committed to defending faith, family and freedom.

Video from the Press Conference

Statement of Claim

[Select here for the full Statement of Claim \(PDF\)](#)

Action4Canada and the Constitutional Rights Centre believe the government is infringing on human rights and have exceeded their authority causing irreparable harm. Their actions appear to constitute criminal negligence, breach of trust, incitement of hatred, crimes against

humanity committed against our elderly, our children and society at large, by withholding life-saving treatments, causing extreme psychological trauma due to the ordering of isolation, lockdowns, masking, social distancing and, without making full, true and plain disclosure of the known risks thereof, mandating and promoting dangerous experimental medical injections which they know, or ought to know, cause adverse reactions and death.

The government's dictatorial and unlawful measures and their out-of-control spending, in response to COVID-19 are further destroying our businesses, our communities, and our economy. Many small businesses have been forced to close. Furthermore, the escalating national debt is putting the future of our children and grandchildren at risk.

The measures are in violation of the Constitution and nearly every section of the Charter of Rights and Freedoms. Canadians have "guaranteed" rights. Such as Section 7 of the Charter and 1(a) of the Bill of Rights; "the right to life, liberty and security of the person and the right not to be deprived thereof except in accordance with the principles of fundamental justice".

The government's actions are putting our sovereignty, national security, and our democracy at risk.

Financial Goal 100% 100%

Please **consider a donation** as we are a not-for-profit and rely solely on the contributions of our donors to support the ongoing work we are doing.

COVID-19 Liability Notices | Action4Canada

action4canada.com/covid-liability-notice/

August 4, 2021

Notices of Liability

Business, Mask, Jab, Testing etc

All things COVID Related: Protect yourself, your job and your children

Personal liability is a critical weapon in this war against individual rights and freedoms. Canadians have inalienable rights. We have a Constitution and a Charter of Rights and Freedoms, plus the Rule of Law. If you do not want to lose your rights then you need to take action to protect them by holding those who are violating your rights, personally liable.

No Order or government mandates supersede YOUR guaranteed right to work; assemble; worship; or see your family or loved ones; nor to force you to have anything stuck into any part of your body without your 100% consent. If you do not want to lose your rights then you must not concede, comply or give in to this tyranny.

To assist you, **Action4Canada** has created the following Notices of Liability and non-consent form to protect you and your family from a government that is out of control.

Click on these links to jump directly to each Notice of Liability section:

NOTE: You do not need a lawyer to serve a Notice of Liability.

Fill in the top of the NOL with the name of the person you are serving, sign and date the bottom, keep a copy, and either deliver personally or send by registered mail.

COVID Advance Medical Directive

COVID Advance Medical Directive

Print off and attach to your medical card to advise medical professionals of your wishes should you need hospital care.

COVID Testing

Notice of Liability Against Forced Covid Testing

Right to REFUSE Covid Testing. The Genetic Non-Discrimination Act, Bill S201, It is an indictable offence to force anyone to take a DNA/RNA test or deny any service, employment, or education opportunity. The PCR test measures the “genetic” material in a sample.

People rallying against COVID-19 health orders marched along Dewdney Trunk Road Wednesday, Nov. 3. (Colleen Flanagan/The News)

Rally opposes vaccines

About 200 people turned up for a march Wednesday

Colleen Flanagan
cflanagan@mapleridgenews.com

Hundreds of people took to the streets in Maple Ridge calling for an end to COVID-19 mandates Wednesday afternoon.

About 200 people started and finished their march at Memorial Peace Park for what organizers called a peaceful rally at the bandstand.

The group Action4Canada was behind the event – a group that calls COVID-19 vaccine an experimental injection.

Organizers were hoping to give “notices of liability” to Maple Ridge Mayor Mike Morden, and the rest of city council – a notice they were encouraging people to print from their website to “inform” community elected officials that they have “absolutely no authority or jurisdiction to prescribe medical treatments and that they must cease and desist or be held personally, civilly, and criminally liable...”

Mayor Mike Morden said he met with a group outside city hall and received documents that he was told were intended for

“It was a cordial exchange,” he remarked.

Ridge Meadows RCMP stood by the entrance to city hall making sure those taking part in the rally did not enter.

People were holding signs saying: “Last year’s hero, this year unemployed,” “I am not an experiment,” and “Informed consent not coercion.”

Guest speakers at the event were with a group called Police On Guard – who describe themselves as a group of active duty and retired law enforcement officers, who want to see an end to what they call “unconstitutional public health orders.”

“Our mission is to uphold the oath that we’ve all taken, to uphold the Charter of Rights and Constitution for all Canadians coast-to-coast. Why is this important? As we see these mandates affect the lives of many Canadians, it has been very important for us to take that stand,” said a representative, addressing the rally.

The Ridge Meadows chapter of Action-4Canada the group was started only six weeks ago and this is its second known appearance in Maple Ridge.

The same group was behind an anti-vaccine protest around Webster’s Corners Elementary on Oct. 26, where a group of about 20 people were handing out information sheets about the HPV vaccine to parents who were dropping off their children for class.

Notice of Liability: Employee | Action4Canada

action4canada.com/liability-notice-employee/

June 5, 2021

Is your job at risk due to the COVID Experimental Injection?

Print PDF: [Employer Vaccine Notice of Liability](#)

Employers, whether medical or not, are unlawfully practising medicine by prescribing, recommending, and/or using coercion to insist employees submit to the experimental medical treatment for Covid-19, namely being injected with one of the experimental gene therapies commonly referred to as a “vaccine”.

According to top constitutional lawyer, Rocco Galati, “both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable”.

Therefore, notify your employer today that you will hold them personally liable for any financial injury and/or loss of your personal income and ability to provide food and shelter for your family if they choose to use coercion or discrimination against you based on your decision not to participate in the COVID-19 experimental treatments.

Take ACTION!

- Print the Notice of Liability (link in blue above)
- Fill in the name of the person you are sending it to, owner and/or management (one notice per person), at the top and then fill in your name and your signature at the bottom (you do not need to get your employer to sign it).
- Keep a photocopy of the Notice for your records
- Then either personally give the signed copy to your employer/owner/manager in person or you can send it by mail.

- Video record serving the NOL when done in person and use registered mail if sending by post so you have proof of them having received it.

Action4Canada accepts no responsibility or liability for any harms or losses that occur as result of delivering this notice. If you do not agree to these terms then please do not use this notice.

Action4Canada accepts no responsibility or liability for any harms or losses that occur as result of delivering this notice to anyone. If you do not agree to these terms then please do not use this notice. We do not make any representations or warranties about the potential consequences of delivering this Notice of Liability

ACTION4CANADA

Protecting Faith, Family and Freedom

“Vaccine” Notice of Liability:

**Employers (Health Care, Federal, Private and Public)
Business Associations, and the like**

How to Serve the Notice of Liability

- Print two copies of the Notice of Liability.
- Fill in the name of the person you are serving it to in the space provided at the top of the first page - on both copies.
- Sign your name and fill in the date in the space provided on the last page - on both copies.
- Keep one copy of the Notice for your records.
- Give the second copy to the person you are serving it to. If they choose not to accept it, then leave it on the floor at their feet.
- If you are serving the Notice in person, be sure to video record yourself serving it (or audio record if video is not possible).
- **If sending by mail, you must use registered mail as that provides proof of delivery.**

Keep all information (eg. Liability Notice copy, video, mailing proof etc.) in a safe place for future use.

NOTE: You do not need a lawyer to serve a Notice of Liability and you do not need consent, or the signature of the person you are serving it to.

Disclaimer: Action4Canada accepts no responsibility or liability for any harms or losses that occur as result of serving a notice of liability. If you do not agree to these terms, then please do not use this notice. We do not make any representations or warranties about the potential consequences of serving a Notice of Liability. This information is not intended as legal or health advice.

**Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Business Associations, and the like**

Name of Employer/Business Assoc: _____

Attn: _____

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivising, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a “vaccine”.

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in “cases” is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, “the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person”.

Despite this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a ‘problem’ at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, “the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between “dead” matter and living matter”⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10, 2021, Manitoba’s Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen’s Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections is not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Vaccine development is a long, complex process, often lasting 10-15 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399.

¹⁷ <https://childrenshealthdefense.org/defender/vaers-data-reports-injuries-12-to-17-year-olds-more-than-triple/>

¹⁸ <https://omny.fm/shows/on-point-with-alex-pierson/new-peer-reviewed-study-on-covid-19-vaccines-sugge>

(Referenced on Page 8 of “An Assessment of Covid-19...”) ¹⁹. Per the American Council on Science and Health, as well as the National Institutes of Health (NIH), “the estimated age-specific Infection Fatality Rate (IFR) is very low for children and younger adults (e.g., 0.002% at age 10 and 0.01% at age 25) which translates to a survivability rate of 99.99% to 99.998%, whereas the IFR is 0.4% at age 55 and 1.4% at 65 translating to a survivability rate of 99.6% to 98.6% respectively” ^{20 21}. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

7. According to Health Canada's Summary Basis of Decision ²², updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: “use in paediatric (age 0-18)”, “use in pregnant and breastfeeding women”, “long-term safety”, “long-term efficacy” including “real-world use”, “safety and immunogenicity in subjects with immune-suppression”, and concomitant administration of non-COVID vaccines”.

Under the Risk Management plan section of the Summary Basis of Decision, it includes a statement based on clinical and non-clinical studies that “one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)”. In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

In an article titled “Vaccination against SARS-CoV-2 and disease enhancement – knowns and unknowns” published on NCBI they specifically state: “The possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)” ²³.

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined ²⁴. It is further reported that only one percent of vaccine injuries are reported to VAERS ²⁵, compounded by several month’s delay in uploading the adverse events to the VAERS database ²⁶.

On November 5, 2021, VAERS data release for the period December 14, 2020 to October 29, 2021, showed 856,919 adverse events reports following COVID-19 injections, including 18,078 deaths and 131,027 serious injuries. Of that total, 1,320 adverse injury reports were of miscarriage or premature birth; 3,090 reported cases of Bell’s Palsy; 2,070 reports of serious anaphylaxis; 10,686 reports of blood clotting disorders; and 3,030 cases of myocarditis and pericarditis ²⁷.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was “...scrubbing unprecedented numbers of injection-related-deaths”. He further added, “...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it’s pulled off the market” ²⁸.

9. Canada’s Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.

10. Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{29 30}.

Under the *Crimes Against Humanity and War Crimes Act of Canada*³¹, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The Act also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the *Criminal Code of Canada*³², a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³³, it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the *Canadian Criminal Code*³⁴, to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.
R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

³³ <https://www.parl.ca/DocumentViewer/en/42-1/bill/S-201/royal-assent>

³⁴ <https://laws-lois.justice.gc.ca/eng/acts/c-46/page-51.html#docCont>

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192³⁵, the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30³⁶.

Vaccination is voluntary in Canada³⁷. Even if the government attempts to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose ANY vaccine including the COVID-19 experimental injections on employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁸ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁹ (2005)
- **Nuremberg Code**⁴⁰ (1947)
- **Helsinki Declaration**⁴¹ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, "both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable."⁴²

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴³. For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to take ANY vaccine including the COVID-19 experimental injection.

Notice of Liability – Elected Officials

action4canada.com/liability-notice-elected-officials/

July 11, 2021

Print PDF – Elected Officials Vaccine Notice of Liability

Elected officials are not medical professionals and, therefore, they are unlawfully practising medicine by prescribing, recommending, and/or using coercion to insist citizens submit to the experimental medical treatment for Covid-19, namely being injected with one of the experimental gene therapies commonly referred to as a “vaccine”.

According to top constitutional lawyer, Rocco Galati, “both government and private businesses cannot impose mandatory vaccinations...”

Be proactive and take action and inform the elected officials in your community that they have absolutely no authority or jurisdiction to prescribe medical treatments and that they must cease and desist or be held personally, civilly, and criminally liable for any injuries or deaths that may occur as a result of recommending, encouraging, advertising, mandating, facilitating, incentivising, coercing, or administering these experimental injections to members of the public, including minors.

Take ACTION!

- Print the Notice of Liability
- Fill in the name of the person you are sending it to, owner and/or management (one notice per person)
- Keep a photocopy of the Notice for your records
- Record the event when providing the signed copy to the recipient in person.
- **If sending by mail we recommend you send it by registered mail**

Action4Canada accepts no responsibility or liability for any harms or losses that may occur as result of delivering this notice to anyone. If you do not agree to these terms then please do not use this notice. We do not make any representations or warranties about the potential consequences of delivering this Notice of Liability

ACTION4CANADA

Protecting Faith, Family and Freedom

“Vaccine” Notice of Liability: Elected/Appointed Officials

How to Serve the Notice of Liability

- Print two copies of the Notice of Liability.
- Fill in the name of the person being served in the space provided at the top of the first page - on both copies.
- Sign your name and fill in the date in the space provided on the last page - on both copies.
- Keep one copy of the Notice for your records.
- Give the second copy to the person you are serving it to. If they choose not to accept it, then leave it on the floor at their feet.
- If you are serving the Notice in person, be sure to video record yourself serving it (or audio record if video is not possible).
- **If sending by mail, you must use registered mail as that provides proof of delivery.**

Keep all information (eg. Liability Notice copy, video, mailing proof etc.) in a safe place for future use.

NOTE: You do not need a lawyer to serve a Notice of Liability and you do not need consent, or the signature of the person you are serving it to.

Disclaimer: Action4Canada accepts no responsibility or liability for any harms or losses that occur as result of serving a notice of liability. If you do not agree to these terms, then please do not use this notice. We do not make any representations or warranties about the potential consequences of serving a Notice of Liability. This information is not intended as legal or health advice.

“Vaccine” Notice of Liability Elected/Appointed Officials

On Notice To: _____

Re: COVID-19 injections recommended, encouraged, advertised, mandated, facilitated, or incentivised in anyway by you to the public

This is your official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivising, and using coercion to insist citizens, including minors, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a “vaccine”.

Experimental vaccines are only authorized to be used under an official State of Emergency and only if there are no other adequate, approved or available alternatives. The Federal Government did not enact a State of Emergency for COVID-19 and effective alternatives including Vitamin D, Ivermectin and Hydroxychloroquine have been available from the onset but their use was prohibited.

The emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in “cases” is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, “the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person”.

Despite this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a ‘problem’ at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, “the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between “dead” matter and living matter”⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba’s Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections is not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Vaccine development is a long, complex process, often lasting 10-15 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in the tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

¹⁸ <https://omny.fm/shows/on-point-with-alex-pierson/new-peer-reviewed-study-on-covid-19-vaccines-sugge>

6. Minors are at nearly zero percent risk of contracting or transmitting this respiratory illness and are, instead, buffers which help others build their immune system. The overall survival rate of minors is 99.997%.¹⁹ In spite of these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

According to Health Canada's Summary Basis of Decision, updated May 20, 2021²⁰, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines".

Under the Risk Management plan section of the Summary Basis of Decision, it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)". In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)"²¹.

7. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²². It is further reported that only one percent of vaccine injuries are reported to VAERS²³, compounded by several month's delay in uploading the adverse events to the VAERS database²⁴.

On November 5, 2021, VAERS data release for the period December 14, 2020 to October 29, 2021, showed 856,919 adverse events reports following COVID-19 injections, including 18,078 deaths and 131,027 serious injuries. Of that total, 1,320 adverse injury reports were of miscarriage or premature birth; 3,090 reported cases of Bell's Palsy; 2,070 reports of serious anaphylaxis; 10,686 reports of blood clotting disorders; and 3,030 cases of myocarditis and pericarditis²⁵.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths". He further added, "...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"²⁶.

8. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.
9. **Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use**^{27 28}.

Messaging from individuals including yourself, has placed pressure on the public to receive injections in exchange for the loosening of implemented lockdowns, restrictions, and infringements of various freedoms. This includes an inability to make income or see family members as a result of these restrictions, which adversely affects people's ability to meet basic needs and care for themselves and their families.

You have incentivised the receiving of injections, measuring the public's compliance against the degree, prevalence and severity of lockdowns and restrictions. This is a form of coercion as it makes clear specific consequences of non-compliance, which includes continued difficulty to make income, to maintain businesses, to maintain living standards and meet personal/familial responsibilities due to the continuation of these lockdowns and restrictions. This has also impacted the medical and care home system where family members have been unable to see other family members in the care of these systems, due to the nature of lockdown measures.

As for children, they have been exposed to unprecedented amounts of fear, instability, shaming, psychological trauma, bullying, and segregation through the COVID-19 measures and are therefore, even more susceptible to being influenced by those in authority than their developmental stage would usually entail. Schools include vaccine and COVID-19 "vaccine" curriculum, which is politically and medically biased, prejudicial, and is a form of undue influence on any minor child.

The curriculum, and indeed all government narratives, exclude full disclosure of the growing risks (adverse reactions and death) of the experimental injection, and the emerging evidence that the shots do not provide protection, as claimed. Informed consent with FULL disclosure is mandatory and yet, due to lack of research data, "full" disclosure cannot be provided.

Further to this, suggestions/recommendations from you that people take COVID-19 injections are being made without adequate training and credentials that would qualify you to make medical decisions or recommendations for other people. These recommendations/suggestions have also been made in complete contradiction to statements, recommendations, and findings of qualified medical practitioners, many of which are listed in this document. Among these qualified individuals are those who have made clear certain medical consequences that have resulted from the receiving of COVID-19 injections, meaning recommendation from 'medically unqualified' people such as yourself, have placed pressure on the public to receive an injection that might (according to medical specialists) jeopardize their health by harming or even killing them.

Your actions may further constitute breach of trust and deception.

Under the *Crimes Against Humanity and War Crimes Act of Canada*²⁹, a crime against humanity means, among other things: murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The Act also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada³⁰, a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³¹, it is an indictable offence to force anyone to take a DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

²⁹ <https://laws-lois.justice.gc.ca/eng/acts/c-45.9/page-1.html>

³⁰ <https://laws-lois.justice.gc.ca/eng/acts/c-46/page-57.html#docCont>

³¹ <https://www.parl.ca/DocumentViewer/en/42-1/bill/S-201/royal-assent>

It is a further violation of the Canadian Criminal Code³², to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³³ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁴

Vaccination is voluntary in Canada³⁵. Even if the government attempts to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Yet, as already mentioned in this document, some federal, provincial, municipal officials have incentivised the taking of COVID-19 injections, even suggesting that lockdowns and lockdown measures will not end until enough of the population has received these injections. This is despite the negative impacts that lockdowns have had on the health and well-being of the citizenry. Officials are not only infringing on human rights, but they are also putting themselves personally at risk of a civil lawsuit for damages and potential imprisonment by attempting to impose these experimental injections on citizens, including minors. Canadian law has long recognized that individuals have the right to control what happens to their bodies, law which is being directly infringed upon by these officials.

³² <https://laws-lois.justice.gc.ca/eng/acts/c-46/page-51.html#docCont>

³³ <https://scc-csc.lexum.com/scc-csc/scc-csc/en/item/2553/index.do>

³⁴ <https://www.canlii.org/en/ca/scc/doc/2013/2013scc30/2013scc30.html?resultIndex=1>

³⁵ https://web.archive.org/web/20080414131846/http://www.phac-aspc.gc.ca/publicat/ccdr-rmtc/97vol23/23s4/23s4b_e.html

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms³⁶ (1982)** Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights³⁷ (2005)**
- **Nuremberg Code³⁸ (1947)**
- **Helsinki Declaration³⁹ (1964, Revised 2013)** Article 25, 26

All Canadian law, contrary to misinformation spread by the WHO, does not allow for “implied consent.” The Mature Minor doctrine cannot override the wishes and consent of the parents outside of the emergency threat of imminent harm or death. Vaccinations do not fall under the Mature Minor doctrine⁴⁰.

In conclusion, administration of vaccinations is defined as a “medical procedure”. Therefore, you have no authority or jurisdiction to prescribe medical treatments and you must cease and desist or be held personally, civilly, and criminally liable for any injuries or deaths that may occur as a result of recommending, encouraging, advertising, mandating, facilitating, incentivising, coercing, or administering ANY vaccine including the experimental COVID-19 injections to members of the public, including myself, and/or including minors.

[EXTERNAL] This email came from an external source. Only open attachments or links that you are expecting from a known sender.

Hello [REDACTED]

I wanted to send you the attached letter for the sake of information sharing in regards to the vaccine mandate. There are numerous additional documents that indicate more study results and references but this one covers a lot of the main points. It is worded with a fairly strong viewpoint but I am simply sharing it for information at this time.

I had my reservations about these vaccines well over a year ago when they were first talking about them and after multiple personal interactions with first hand medical knowledge and experience, I made my decision to pass on the currently available Covid-19 vaccines.

I know that we are all trying to make the best decisions for ourselves at this point and time, and I'm not trying to convince anyone one way or another, so I hope this sheds some light on an alternative perspective. I disagree with the BCPS vaccine mandate, the covid passport requirements, and the singular method of fighting a viral infection with the experimental vaccinations.

I am always open to talk so feel free to call me anytime.
 Regards,

[REDACTED]

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivising, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a “vaccine”.

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in “cases” is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, “the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person”.

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a ‘problem’ at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, “the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between “dead” matter and living matter”⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba’s Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections are not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Most vaccines are trialed for at least 5-10 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in the tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399¹⁹. According to Centre for Disease Control and Prevention (CDC), survival chances in the age category of 20-29 with no underlying condition, for males is 99.9997% and for females 99.9998%, and with underlying conditions 99.9037% and 99.9466 respectively²⁰. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

²⁰ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

7. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: “use in paediatric (age 0-18)”, “use in pregnant and breastfeeding women”, “long-term safety”, “long-term efficacy” including “real-world use”, “safety and immunogenicity in subjects with immune-suppression”, and concomitant administration of non-COVID vaccines”.

Under the Risk Management plan section of the Summary Basis of Decision²¹, it includes a statement based on clinical and non-clinical studies that “one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)”. In other words, the shot increases the risk of disease and side-effects, and **weakens immunity toward future SARS related illness.**

The report specifically states, “the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)”²².

8. **As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²³.** It is further reported that only one percent of vaccine injuries are reported to VAERS²⁴, compounded by several month’s delay in uploading the adverse events to the VAERS database²⁵.

On September 17, 2021, VAERS data release for the period December 14, 2020 to September 10, 2021, showed 701,561 adverse events reports following COVID-19 injections, including 14,925 deaths and 91,523 serious injuries. Of that total, 19,827 adverse injury reports were among 12–17-year old’s with 19 reported deaths and included 488 reports of myocarditis from the Pfizer jab and 106 reports of blood clotting disorders, again from the Pfizer injection²⁶.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was “...scrubbing unprecedented numbers of injection-related-deaths”. He further added, “...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it’s pulled off the market²⁷”.

9. Canada’s Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.

10. **Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{28 29}.**

Under the *Crimes Against Humanity and War Crimes Act of Canada*³⁰, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general

³⁰ <https://laws-lois.justice.gc.ca/eng/acts/c-45.9/page-1.html>

principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or councils in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada³¹, a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³², it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the Canadian Criminal Code,³³ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁴ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁵

Vaccination is voluntary in Canada³⁶. Even if the government attempts to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose ANY vaccine including the COVID-19 experimental injections on employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁷ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁸ (2005)
- **Nuremberg Code**³⁹ (1947)
- **Helsinki Declaration**⁴⁰ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, “both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable.”⁴¹

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴². For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to take ANY vaccine including the COVID-19 experimental injection.

Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Business Associations, and the like

Name of Employer/Business Assoc: British Columbia Provincial Government
British Columbia Public Service Agency

Attn: Lori Wanamaker

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivizing, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person".

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter"⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections are not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Most vaccines are trialed for at least 5-10 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in the tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399¹⁹. According to Centre for Disease Control and Prevention (CDC), survival chances in the age category of 20-29 with no underlying condition, for males is 99.9997% and for females 99.9998%, and with underlying conditions 99.9037% and 99.9466 respectively²⁰. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

¹⁹ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

²⁰ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

7. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: “use in pediatric (age 0-18)”, “use in pregnant and breastfeeding women”, “long-term safety”, “long-term efficacy” including “real-world use”, “safety and immunogenicity in subjects with immune-suppression”, and concomitant administration of non-COVID vaccines”.

Under the Risk Management plan section of the Summary Basis of Decision²¹, it includes a statement based on clinical and non-clinical studies that “one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)”. In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, “the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)”²².

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²³. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁴, compounded by several month's delay in uploading the adverse events to the VAERS database²⁵.

On September 17, 2021, VAERS data release for the period December 14, 2020, to September 10, 2021, showed 701,561 adverse events reports following COVID-19 injections, including 14,925 deaths and 91,523 serious injuries. Of that total, 19,827 adverse injury reports were among 12–17-year-olds with 19 reported deaths and included 488 reports of myocarditis from the Pfizer jab and 106 reports of blood clotting disorders, again from the Pfizer injection²⁶.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was “...scrubbing unprecedented numbers of injection-related-deaths”. He further added, “...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market²⁷”.

9. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.

10. **Safe and effective treatments and preventive measures already exist for COVID-19, yet the government is prohibiting their use^{28 29}.**

Under the *Crimes Against Humanity and War Crimes Act of Canada*³⁰, a crime against humanity means, among other things, murder, any other inhumane act, or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general

³⁰ <https://laws-lois.justice.gc.ca/eng/acts/c-45.9/page-1.html>

principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or councils in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada³¹, a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³², it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the Canadian Criminal Code,³³ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill, and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁴ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁵

November 2, 2021

Ms. Bobbi Sadler, Deputy Minister
BC Public Service Agency
PO Box 9404 Stn Prov Govt
Victoria, B.C. V8W 9V1

Dear Ms. Sadler,

By complying to and implementing the provincial mandates of COVID injections, testing and masking, you are personally liable for any death or injuries as a result of carrying out the mandates. You are complicit in violating the Nuremberg Code, because these are experimental treatments. The staff, supervisors and managers have the right to informed consent. The Canadian Charter of Rights and Freedoms prohibits coercion into experimental medical treatments.

Contrary to the narrative being promoted by our governments, public health agencies and the mainstream media, we are directly observing unprecedented levels of vaccine-associated injury and death. This is documented in official databases such as the *Vaccine Adverse Events Reporting System (VAERS)* (<https://openvaers.com/index.php>), which is jointly developed and supported by the *US Centers for Disease Control (CDC)* and the *Food and Drug Administration (FDA)*. As of October 22, 2021, there are over 837,593 reported adverse events, including 17,619 deaths, and over 27,277 permanently disabled.

This is your formal Notice of Liability. You have been served.

This COVID injection, testing, and masking program must be terminated immediately.

Respectfully,

Concerned Employees
Enclosure

Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Most vaccines are trialed for at least 5-10 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in the tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399¹⁹. According to Centre for Disease Control and Prevention (CDC), survival chances in the age category of 20-29 with no underlying condition, for males is 99.9997% and for females 99.9998%, and with underlying conditions 99.9037% and 99.9466 respectively²⁰. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

¹⁹ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

²⁰ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

7. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines".

Under the Risk Management plan section of the Summary Basis of Decision²¹, it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)". In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)"²².

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²³. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁴, compounded by several month's delay in uploading the adverse events to the VAERS database²⁵.

On September 17, 2021, VAERS data release for the period December 14, 2020 to September 10, 2021, showed 701,561 adverse events reports following COVID-19 injections, including 14,925 deaths and 91,523 serious injuries. Of that total, 19,827 adverse injury reports were among 12–17-year old's with 19 reported deaths and included 488 reports of myocarditis from the Pfizer jab and 106 reports of blood clotting disorders, again from the Pfizer injection²⁶.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths". He further added, "...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"²⁷.

9. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.

10. Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{28 29}.

Under the *Crimes Against Humanity and War Crimes Act of Canada*³⁰, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general

²⁹ <https://aethonews.com/2021/05/26/five-recently-published-randomized-controlled-trials-confirm-major-statistically-significant-benefits-of-ivermectin-against-covid-19/>

³⁰ <https://laws-lois.justice.gc.ca/eng/acts/c-45.9/page-1.html>

principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or councils in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada³¹, a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³², it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the Canadian Criminal Code,³³ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁴ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁵

Vaccination is voluntary in Canada³⁶. Even if the government attempts to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose ANY vaccine including the COVID-19 experimental injections on employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁷ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁸ (2005)
- **Nuremberg Code**³⁹ (1947)
- **Helsinki Declaration**⁴⁰ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, "both government and private businesses cannot impose mandatory vaccinations... mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable."⁴¹

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴². For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to take the ANY vaccine including the COVID-19 experimental injection.

Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Union Executives, Business Associations, and the like

Name of Employer/Union/Assoc: BC Provincial Government / BCGEU

Attn: Inspector / ~~Stephen~~ Cantelon

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practising medicine by prescribing, recommending, and/or using coercion to insist employees submit to the experimental medical treatment for Covid-19, namely being injected with one of the experimental gene therapies commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency." There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season.¹

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronavirus². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person."

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life science scientists has detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable.⁵ On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer, Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter." On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason⁹. On May 10th, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross examination in a trial before the court of Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses.¹¹

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injection is not required or recommended.

1. The Nuremberg Code,¹² to which Canada is a signatory, states that it is essential before performing medical experiments on human beings, there is voluntary informed consent. It also confirms, a person involved should have legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experimental subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment;
2. All the treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023,¹³ and hence, qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and are further unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy;
3. None of these treatments have been fully approved; only granted emergency use authorization by the FDA, which Health Canada,^{14 15 16} is using as the basis for approval under the interim-order, therefore, fully informed consent is not possible;
4. Most vaccines are trialed for at least 5-10 years,¹⁷ and COVID-19 treatments have been in trials for one year;
5. No other coronavirus vaccine (i.e., MERS, SARS-1) has been approved for market, due to antibody-dependent enhancement, resulting in severe illness and deaths in animal models;¹⁸
6. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including, but not limited to death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁹, and antibody dependent enhancement leading to death; this includes children ages 12-17 years old.²⁰

Dr. Byram Bridle, a pro-vaccine Associate Professor on Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study²¹ on COVID-19 shots. The added Spike Protein to the "vaccine" gets into the blood, circulates through the blood in individuals over several days post-vaccination, it accumulates in the tissues such as the spleen, bone marrow, the liver, the adrenal glands, testes, and of great concern, it accumulates high concentrations into the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation." The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc. There is a high concentration of the Spike Protein getting into breast milk and reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood;

7. Minors are at nearly zero percent risk of contracting or transmitting this respiratory illness and are, instead, buffers which help others build their immune system. The overall survival rate of minors is 99.997%.²² In spite of these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death;
8. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines."

Under the Risk Management plan section of the Summary Basis of Decision,²³ it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)." In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including The World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)."²⁴

9. As reported in the United States to the Vaccine Adverse Events Reporting System (VAERS), there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²⁵.

It is further reported that only one percent of vaccine injuries are reported to VAERS,²⁶ compounded by several months delay in uploading the adverse events to the VAERS database²⁷.

On May 21, 2021, VAERS data release (in the USA alone) showed 262,521 reports of adverse events following COVID-19 injections, including 4,406 deaths and 21,537 serious injuries, between December 14, 2020, and May 21, 2021, and that adverse injury reports among 12-17-year old's more than tripled in one week²⁸.

Dr. McCullough, a highly cited Covid doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths." He further added, "...a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"²⁹;

10. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, hence, many adverse events are going unreported;
11. **Safe and effective treatments and preventive measures exist for COVID-19, apart from the experimental shots, yet the government is prohibiting their use.**^{30 31}

31 <https://alethionews.com/2021/05/26/five-recently-published-randomized-controlled-trials-confirm-major-statistically-significant-benefits-of-ivermectin-against-covid-19/>

Under the *Crimes Against Humanity and War Crimes Act of Canada*³², a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada,³³ a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

It is a further violation of the Canadian Criminal Code,³⁴ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁵ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁶

Vaccination is voluntary in Canada. The federal and provincial governments made it clear that getting the COVID-19

32 <https://laws-lois.justice.gc.ca/eng/acts/c-45.9/page-1.html>

33 <https://laws-lois.justice.gc.ca/eng/acts/c-46/page-57.html#docCont>

35 <https://scc-csc.lexum.com/scc-csc/scc-csc/en/item/2553/index.do>

36 <https://www.canlii.org/en/ca/scc/doc/2013/2013scc30/2013scc30.html?resultIndex=1>

injections would not be mandatory. Even if they do attempt to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose this experimental medical treatment upon their employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁷ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁸ (2005)
- **Nuremberg Code**³⁹ (1947)
- **Helsinki Declaration**⁴⁰ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, "both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable."⁴¹

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴². For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

In conclusion, administration of vaccines is defined as a "medical procedure". In what other medical context could non-doctors and non-pharmacists prescribe, promote and help distribute pharmaceutical drugs? This is unauthorized practice of medicine.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to participate in the COVID-19 experimental treatments.

Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Union Executives, Business Associations, and the like

Name of Employer/Union/Assoc: VSB / VESTA / BCTF

Attn: Adrian Dix

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practising medicine by prescribing, recommending, and/or using coercion to insist employees submit to the experimental medical treatment for Covid-19, namely being injected with one of the experimental gene therapies commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency." There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season.¹

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronavirus². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person."

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life science scientists has detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable.⁵ On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer, Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter." ⁹On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross examination in a trial before the court of Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses.¹¹

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injection is not required or recommended.

1. The Nuremberg Code,¹² to which Canada is a signatory, states that it is essential before performing medical experiments on human beings, there is voluntary informed consent. It also confirms, a person involved should have legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experimental subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment;
2. All the treatments being marketed as COVID-19 “vaccines”, are still in Phase III clinical trials until 2023,¹³ and hence, qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and are further unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy;
3. None of these treatments have been fully approved; only granted emergency use authorization by the FDA, which Health Canada,^{14 15 16} is using as the basis for approval under the interim-order, therefore, fully informed consent is not possible;
4. Most vaccines are trialed for at least 5-10 years,¹⁷ and COVID-19 treatments have been in trials for one year;
5. No other coronavirus vaccine (i.e., MERS, SARS-1) has been approved for market, due to antibody-dependent enhancement, resulting in severe illness and deaths in animal models;¹⁸
6. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including, but not limited to death, blood clots, infertility, miscarriages, Bell’s Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁹, and antibody dependent enhancement leading to death; this includes children ages 12-17 years old.²⁰

Dr. Byram Bridle, a pro-vaccine Associate Professor on Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study²¹ on COVID-19 shots. The added Spike Protein to the “vaccine” gets into the blood, circulates through the blood in individuals over several days post-vaccination, it accumulates in the tissues such as the spleen, bone marrow, the liver, the adrenal glands, testes, and of great concern, it accumulates high concentrations into the ovaries. Dr. Bridle notes that they “have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation.” The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc. There is a high concentration of the Spike Protein getting into breast milk and reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood;

21 <https://omny.fm/shows/on-point-with-alex-pierson/new-peer-reviewed-study-on-covid-19-vaccines-sugg>

7. Minors are at nearly zero percent risk of contracting or transmitting this respiratory illness and are, instead, buffers which help others build their immune system. The overall survival rate of minors is 99.997%.²² In spite of these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death;
8. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines."

Under the Risk Management plan section of the Summary Basis of Decision,²³ it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)." In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including The World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)²⁴,"

9. As reported in the United States to the Vaccine Adverse Events Reporting System (VAERS), there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²⁵.

It is further reported that only one percent of vaccine injuries are reported to VAERS,²⁶ compounded by several months delay in uploading the adverse events to the VAERS database²⁷.

On May 21, 2021, VAERS data release (in the USA alone) showed 262,521 reports of adverse events following COVID-19 injections, including 4,406 deaths and 21,537 serious injuries, between December 14, 2020, and May 21, 2021, and that adverse injury reports among 12-17-year old's more than tripled in one week²⁸.

Dr. McCullough, a highly cited Covid doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths." He further added, "...a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market²⁹,"

10. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, hence, many adverse events are going unreported;
11. **Safe and effective treatments and preventive measures exist for COVID-19, apart from the experimental shots, yet the government is prohibiting their use.**^{30 31}

Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Business Associations, and the like

Name of Employer/Business Assoc: Government of British Columbia

Attn: Rodney Chapman

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivising, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person".

Despite this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter"⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections is not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Vaccine development is a long, complex process, often lasting 10-15 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399.

¹⁸ <https://omny.fm/shows/on-point-with-alex-pierson/new-peer-reviewed-study-on-covid-19-vaccines-suggest>

(Referenced on Page 8 of "An Assessment of Covid-19...")¹⁹. Per the American Council on Science and Health, as well as the National Institutes of Health (NIH), "the estimated age-specific Infection Fatality Rate (IFR) is very low for children and younger adults (e.g., 0.002% at age 10 and 0.01% at age 25) which translates to a survivability rate of 99.99% to 99.998%, whereas the IFR is 0.4% at age 55 and 1.4% at 65 translating to a survivability rate of 99.6% to 98.6% respectively"^{20 21}. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

7. According to Health Canada's Summary Basis of Decision²², updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines".

Under the Risk Management plan section of the Summary Basis of Decision, it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)". In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

In an article titled "Vaccination against SARS-CoV-2 and disease enhancement – knowns and unknowns" published on NCBI they specifically state: "The possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)"²³.

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²⁴. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁵, compounded by several month's delay in uploading the adverse events to the VAERS database²⁶.

On November 5, 2021, VAERS data release for the period December 14, 2020 to October 29, 2021, showed 856,919 adverse events reports following COVID-19 injections, including 18,078 deaths and 131,027 serious injuries. Of that total, 1,320 adverse injury reports were of miscarriage or premature birth; 3,090 reported cases of Bell's Palsy; 2,070 reports of serious anaphylaxis; 10,686 reports of blood clotting disorders; and 3,030 cases of myocarditis and pericarditis²⁷.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths". He further added, "...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"²⁸.

9. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.

10. Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{29 30}.

Under the *Crimes Against Humanity and War Crimes Act of Canada*³¹, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The Act also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or councils in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the *Criminal Code of Canada*³², a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³³, it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the *Canadian Criminal Code*³⁴, to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.
R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

³⁴ <https://laws-lois.justice.gc.ca/eng/acts/c-46/page-51.html#docCont>

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192³⁵, the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30³⁶.

Vaccination is voluntary in Canada³⁷. Even if the government attempts to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose ANY vaccine including the COVID-19 experimental injections on employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁸ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁹ (2005)
- **Nuremberg Code**⁴⁰ (1947)
- **Helsinki Declaration**⁴¹ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, "both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable."⁴²

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴³. For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to take ANY vaccine including the COVID-19 experimental injection.

**Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Business Associations, and the like**

Name of Employer/Business Assoc: BCLDB

Attn: Evan Mc Ashile

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivising, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person".

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter"⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections are not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Most vaccines are trialed for at least 5-10 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in the tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399¹⁹. According to Centre for Disease Control and Prevention (CDC), survival chances in the age category of 20-29 with no underlying condition, for males is 99.9997% and for females 99.9998%, and with underlying conditions 99.9037% and 99.9466 respectively²⁰. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

7. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines".

Under the Risk Management plan section of the Summary Basis of Decision²¹, it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)". In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)"²².

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²³. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁴, compounded by several month's delay in uploading the adverse events to the VAERS database²⁵.

On September 17, 2021, VAERS data release for the period December 14, 2020 to September 10, 2021, showed 701,561 adverse events reports following COVID-19 injections, including 14,925 deaths and 91,523 serious injuries. Of that total, 19,827 adverse injury reports were among 12–17-year old's with 19 reported deaths and included 488 reports of myocarditis from the Pfizer jab and 106 reports of blood clotting disorders, again from the Pfizer injection²⁶.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths". He further added, "...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"²⁷.

9. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.

10. **Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{28 29}.**

Under the *Crimes Against Humanity and War Crimes Act of Canada*³⁰, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general

³⁰ <https://laws-lois.justice.gc.ca/eng/acts/c-45.9/page-1.html>

principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or counsils in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada³¹, a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³², it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the Canadian Criminal Code,³³ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁴ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁵

³⁵ <https://www.canlii.org/en/ca/scc/doc/2013/2013scc30/2013scc30.html?resultIndex=1>

Vaccination is voluntary in Canada³⁶. Even if the government attempts to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose ANY vaccine including the COVID-19 experimental injections on employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁷ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁸ (2005)
- **Nuremberg Code**³⁹ (1947)
- **Helsinki Declaration**⁴⁰ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, “both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable.”⁴¹

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴². For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to take the ANY vaccine including the COVID-19 experimental injection.

Re: COVID-19 injections recommended or administered to employees.

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivizing, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a “vaccine”.

To begin with, the emergency measures are based on the claim that we are experiencing a “public health emergency”. There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in “cases” is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, “the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person”.

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a ‘problem’ at high amplifications as it detects dead cells from old viruses, giving a false positive⁶.

Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, “the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between “dead” matter and living matter”⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba’s Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections are not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Most vaccines are trialed for at least 5-10 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody- dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in the tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399¹⁹. According to Centre for Disease Control and Prevention (CDC), survival chances in the age category of 20-29 with no underlying condition, for males are 99.9997% and for females 99.9998%, and with underlying conditions 99.9037% and 99.9466 respectively²⁰. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

²⁰ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

7. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in pediatric (age 0- 18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non- COVID vaccines".

Under the Risk Management plan section of the Summary Basis of Decision²¹, it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)". In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)"²².

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²³. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁴, compounded by several month's delay in uploading the adverse events to the VAERS database²⁵.

On September 17, 2021, VAERS data release for the period December 14, 2020 to September 10, 2021, showed 701,561 adverse events reports following COVID-19 injections, including 14,925 deaths and 91,523 serious injuries. Of that total, 19,827 adverse injury reports were among 12–17-year old's with 19 reported deaths and included 488 reports of myocarditis from the Pfizer jab and 106 reports of blood clotting disorders, again from the Pfizer injection²⁶.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths". He further added, "...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"²⁷.

9. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence; many adverse events are going unreported there.
10. **Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{28 29}.**

Under the *Crimes Against Humanity and War Crimes Act of Canada*³⁰, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general

- **Nuremberg Code**³⁹ (1947)
- **Helsinki Declaration**⁴⁰ (1964, Revised 2013) Article 25,26

According to top constitutional lawyer, Rocco Galati, “both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable.”⁴¹

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If my employment is terminated or status changed to a status which creates a condition where I am declared as a non-employed employee without pay or the ability to work because of what you have done by creating a status whereby I am not employable or if I am disciplined, discriminated against, or harassed in any way, or my employment is terminated or affected by any new technical non-employment name such as unpaid leave of absence or unapproved unpaid leave of absence where I have not consented nor requested to such status change, as a result of my non-consent to any medical treatment as mandated in my employment context, such actions by you are fully liable under the Criminal Code of Canada and the four Charters, Declarations, and Codes stated above. As a result of my natural and legal rights and decisions to simply decline the COVID-19 vaccination and testing mandates, including my decision to not disclose my vaccination status, which was already violated; and/or any injury or adverse effect I suffer from compliance with such policies, then you make me, who has a perfect unblemished record of employment through many years, through no request by me, “a used Registered Nurse without pay or pension and without any ability to work or collect any ongoing income for myself and family.” If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴². For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

The cost for this ongoing action against me will be One Billion Two Hundred Million legal Canadian dollars paid by each person and institution separately in real legal tender, which is 29,542,000 ounces of 9999 Purity Canadian Maple Leaf Silver Coins. This will be payable immediately with no withholding, delay or taxation of any form to me personally. Criminal filings will occur after October 13, 2021 as a mandate declaration was received verbally by me while on holidays from Heather Dorsey on September 20, 2021 at 2:58PM MDT. Heather Dorsey inferred her declaration was given from the Interior Health Authority and higher management authority.

I hereby notify you that if you use coercion or discrimination against me based on my decision not to take any vaccine including the COVID-19 experimental injection, then I will hold you personally liable both criminally and for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family. I will not be prejudiced against nor have any recourse taken against me by those violating my legal rights provincially, federally or internationally for asserting my natural and legal rights in this Notice.

Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Business Associations, and the like

Name of Employer/Business Assoc: Coastal Fire Centre

Attn: Clint Parker

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivising, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person".

Despite this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter"⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections is not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Vaccine development is a long, complex process, often lasting 10-15 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399.

¹⁸ <https://omny.fm/shows/on-point-with-alex-pierson/new-peer-reviewed-study-on-covid-19-vaccines-sugge>

(Referenced on Page 8 of "An Assessment of Covid-19...")¹⁹. Per the American Council on Science and Health, as well as the National Institutes of Health (NIH), "the estimated age-specific Infection Fatality Rate (IFR) is very low for children and younger adults (e.g., 0.002% at age 10 and 0.01% at age 25) which translates to a survivability rate of 99.99% to 99.998%, whereas the IFR is 0.4% at age 55 and 1.4% at 65 translating to a survivability rate of 99.6% to 98.6% respectively"^{20 21}. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

7. According to Health Canada's Summary Basis of Decision²², updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines".

Under the Risk Management plan section of the Summary Basis of Decision, it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)". In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

In an article titled "Vaccination against SARS-CoV-2 and disease enhancement – knowns and unknowns" published on NCBI they specifically state: "The possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)"²³.

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²⁴. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁵, compounded by several month's delay in uploading the adverse events to the VAERS database²⁶.

On November 5, 2021, VAERS data release for the period December 14, 2020 to October 29, 2021, showed 856,919 adverse events reports following COVID-19 injections, including 18,078 deaths and 131,027 serious injuries. Of that total, 1,320 adverse injury reports were of miscarriage or premature birth; 3,090 reported cases of Bell's Palsy; 2,070 reports of serious anaphylaxis; 10,686 reports of blood clotting disorders; and 3,030 cases of myocarditis and pericarditis²⁷.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths". He further added, "...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"²⁸.

9. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.

10. Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{29 30}.

Under the *Crimes Against Humanity and War Crimes Act of Canada*³¹, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The Act also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the *Criminal Code of Canada*³², a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³³, it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the *Canadian Criminal Code*³⁴, to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

²⁹ <https://www.washingtonexaminer.com/news-study-finds-84-fewer-hospitalizations-for-patients-treated-with-controversial-drug-hydroxychloroquine>

³⁰ <https://alethonews.com/2021/05/26/five-recently-published-randomized-controlled-trials-confirm-major-statistically-significant-benefits-of-ivermectin-against-covid-19/>

³⁴ <https://laws-lois.justice.gc.ca/eng/acts/c-46/page-51.html#docCont>

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192³⁵, the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30³⁶.

Vaccination is voluntary in Canada³⁷. Even if the government attempts to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose ANY vaccine including the COVID-19 experimental injections on employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁸ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁹ (2005)
- **Nuremberg Code**⁴⁰ (1947)
- **Helsinki Declaration**⁴¹ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, "both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable."⁴²

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴³. For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to take ANY vaccine including the COVID-19 experimental injection.

Vaccine Notice of Liability Employers (Public) Business Associations, and the like

Name of Employer/Business Assoc: The Province of BC, Ministry of Attorney General, CMSB

Attn: David Hoadley

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivising, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a “vaccine”.

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in “cases” is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, “the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person”.

Despite this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a ‘problem’ at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, “the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between “dead” matter and living matter”⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10, 2021, Manitoba’s Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections is not required or recommended.

2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Vaccine development is a long, complex process, often lasting 10-15 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399.

¹⁸ <https://omny.fm/shows/on-point-with-alex-pierson/new-peer-reviewed-study-on-covid-19-vaccines-sugge>

(Referenced on Page 8 of “An Assessment of Covid-19...”¹⁹. Per the American Council on Science and Health, as well as the National Institutes of Health (NIH), “the estimated age-specific Infection Fatality Rate (IFR) is very low for children and younger adults (e.g., 0.002% at age 10 and 0.01% at age 25) which translates to a survivability rate of 99.99% to 99.998%, whereas the IFR is 0.4% at age 55 and 1.4% at 65 translating to a survivability rate of 99.6% to 98.6% respectively^{20 21}. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

7. According to Health Canada's Summary Basis of Decision²², updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: “use in paediatric (age 0-18)”, “use in pregnant and breastfeeding women”, “long-term safety”, “long-term efficacy” including “real-world use”, “safety and immunogenicity in subjects with immune-suppression”, and concomitant administration of non-COVID vaccines”.

Under the Risk Management plan section of the Summary Basis of Decision, it includes a statement based on clinical and non-clinical studies that “one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)”. In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

In an article titled “Vaccination against SARS-CoV-2 and disease enhancement – knowns and unknowns” published on NCBI they specifically state: “The possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)”²³.

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²⁴. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁵, compounded by several month’s delay in uploading the adverse events to the VAERS database²⁶.

On November 5, 2021, VAERS data release for the period December 14, 2020 to October 29, 2021, showed 856,919 adverse events reports following COVID-19 injections, including 18,078 deaths and 131,027 serious injuries. Of that total, 1,320 adverse injury reports were of miscarriage or premature birth; 3,090 reported cases of Bell’s Palsy; 2,070 reports of serious anaphylaxis; 10,686 reports of blood clotting disorders; and 3,030 cases of myocarditis and pericarditis²⁷.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was “...scrubbing unprecedented numbers of injection-related-deaths”. He further added, “...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it’s pulled off the market”²⁸.

9. Canada’s Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.

10. Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{29 30}.

Under the *Crimes Against Humanity and War Crimes Act of Canada*³¹, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The Act also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the *Criminal Code of Canada*³², a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³³, it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the *Canadian Criminal Code*³⁴, to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.
R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

³² <https://laws-lois.justice.gc.ca/eng/acts/c-46/page-57.html#docCont>

³³ <https://www.parl.ca/DocumentViewer/en/42-1/bill/S-201/royal-assent>

³⁴ <https://laws-lois.justice.gc.ca/eng/acts/c-46/page-51.html#docCont>

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192³⁵, the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30³⁶.

Vaccination is voluntary in Canada³⁷. Even if the government attempts to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose ANY vaccine including the COVID-19 experimental injections on employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁸ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁹ (2005)
- **Nuremberg Code**⁴⁰ (1947)
- **Helsinki Declaration**⁴¹ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, "both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable."⁴²

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴³. For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to take ANY vaccine including the COVID-19 experimental injection or to have to show proof thereof.

Subject: Vaccine Notice

Hello [REDACTED]

I have placed the signed document on your office desk as well as attached the electronic version.

Let's discuss this tomorrow.

I am deeply troubled and anguished with the executive mandate to terminate my employment by our deputy minister Lori Wanamaker for my non participation in the experimental gene therapy injections for COVID-19.

[REDACTED]

Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Business Associations, and the like

Name of Employer/Business Assoc: Ministry of Citizens' Services - Province of British Columbia

Attn: Jan Bott Director, Application Management

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivising, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person".

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter"⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections are not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Most vaccines are trialed for at least 5-10 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in the tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399¹⁹. According to Centre for Disease Control and Prevention (CDC), survival chances in the age category of 20-29 with no underlying condition, for males is 99.9997% and for females 99.9998%, and with underlying conditions 99.9037% and 99.9466 respectively²⁰. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

²⁰ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

7. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines".

Under the Risk Management plan section of the Summary Basis of Decision²¹, it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)". In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)"²².

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²³. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁴, compounded by several month's delay in uploading the adverse events to the VAERS database²⁵.

On September 17, 2021, VAERS data release for the period December 14, 2020 to September 10, 2021, showed 701,561 adverse events reports following COVID-19 injections, including 14,925 deaths and 91,523 serious injuries. Of that total, 19,827 adverse injury reports were among 12–17-year old's with 19 reported deaths and included 488 reports of myocarditis from the Pfizer jab and 106 reports of blood clotting disorders, again from the Pfizer injection²⁶.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths". He further added, "...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"²⁷.

9. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.

10. Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{28 29}.

Under the *Crimes Against Humanity and War Crimes Act of Canada*³⁰, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general

²⁹ <https://alethonews.com/2021/05/26/five-recently-published-randomized-controlled-trials-confirm-major-statistically-significant-benefits-of-ivermectin-against-covid-19/>

³⁰ <https://laws-lois.justice.gc.ca/eng/acts/c-45.9/page-1.html>

principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, is an accessory after the fact, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada³¹, a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³², it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the Canadian Criminal Code,³³ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁴ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁵

³⁴ <https://scc-csc.lexum.com/scc-csc/scc-csc/en/item/2553/index.do>

³⁵ <https://www.canlii.org/en/ca/scc/doc/2013/2013scc30/2013scc30.html?resultIndex=1>

Vaccination is voluntary in Canada³⁶. Even if the government attempts to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose ANY vaccine including the COVID-19 experimental injections on employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms³⁷** (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights³⁸** (2005)
- **Nuremberg Code³⁹** (1947)
- **Helsinki Declaration⁴⁰** (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, "both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable."⁴¹

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴². For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to take the ANY vaccine including the COVID-19 experimental injection.

From: [REDACTED]
Sent: Monday, November 1, 2021 3:02 PM
To: [REDACTED]
Cc: [REDACTED]
Subject: Vaccine exemption request

Superintendent [REDACTED]

Note: Inspector [REDACTED] (as first level excluded) is attending to other very important matters so I am sending this to you to forward as necessary. I discussed this with S.Sgt [REDACTED] and determined this was appropriate under the circumstances.

I am formally requesting an exemption to the COVID 19 vaccine mandate as stipulated in Lori Wanamakers emails, subject *Executive Message from Lori Wanamaker: COVID-19 Vaccination Policy for the BC Public Service* issued to all PSA

employees on November 1 2021. I am requesting an exemption based on the BC Human Rights code, specifically section 13:

“Discrimination in employment

13 (1) *A person must not*

(a) refuse to employ or refuse to continue to employ a person, or

(b) discriminate against a person regarding employment or any term or condition of employment

because of the race, colour, ancestry, place of origin, political belief, religion, marital status, family status, physical or mental disability, sex, sexual orientation, gender identity or expression, or age of that person or because that person has been convicted of a criminal or summary conviction offence that is unrelated to the employment or to the intended employment of that person.”

Political belief: I hold the political belief that this mandate and indeed covid do not exist in isolation from other agenda now prevalent in Canada and other so-called democratic nations. I hold the political belief that QR codes and other forms of proof of vaccination are symptoms of our rapidly eroding democracy and a sign of impending political oppression. I hold the political belief that mandating a vaccine, especially as a new term of employment, is utterly immoral and a complete contravention of the principles founding this country. I hold the political belief that this mandate is a direct assault on my personal rights and freedoms and that control of ‘the person’ i.e. ones own body, is fundamental to individual autonomy. I hold the political belief that our current provincial and federal administrations have removed any reasonable mechanism by which a person can reasonably challenge the legality of this mandate; this BC Public Service ‘mandate’ is an extension of that legal oppression. I am seeking an exemption on the basis that coercing me into receiving this vaccine against my will is a direct violation of my human rights under the BC Human Rights Code. It is absurd and abhorrent to suggest that threatening a persons livelihood is not coercion and that this is somehow tantamount to free choice. A denial of an exemption on this basis is a denial of my ability to hold and maintain a political position; one which does not discriminate against others as a tenet of the belief i.e. not a morally or legally objectionable position.

Physical disability: by not receiving the vaccine, the BC public service is in essence seeking to place me on unpaid leave or even terminate my employment on the basis that I am physically disabled. By not vaccinating against the COVID 19 virus, the public service is stating that something about my physical being renders me unemployable which is again a violation of my rights under the BC Human Rights Code. Furthermore is BC Public Service is rendering me unemployable without any proof that I have placed any other person at risk or that I intend to place another person at risk (i.e. termination without cause). As such I am seeking an exemption on the basis that, as of Nov 22nd 2021, I am physically disabled according to the BC Public Service. Should the employer wish to discuss accommodations that usually follow along with physical disabilities, I am open to this. To say that it is inappropriate to skip directly to threatening my employment in the manner that Lori Wanamaker has now done on several occasions is an understatement.

It is important to note that the BC Public Service appears to be seeking *termination for cause* with respect to individuals who either refuse to vaccinate or refuse to show acceptable proof of vaccination. This is a fundamental change to the terms of our employment and, failing all else, the BC Public Service should be offering severance as per the collective before seeking outright termination. There are those of us who have been with this employer for long periods of time, who’ve sacrificed a great deal in service to the province and who would continue to sacrifice in service to the province given the opportunity. As I’ve alluded to above, this is so much more than a health crisis and to term it as such would be a vast over-simplification and injustice.

In addition to the reasons noted above, I have attached the notice of liability previously forwarded to PSA on October 22nd 2021 as well as sent to Inspector Blundell (as first level excluded representative). I want to make it very clear that this email and my response to this mandate i.e. alleging breaches of my human rights (if not given an exemption), is in no way a reflection of my colleagues or management here in Prince George. At a local level I have been treated with utmost respect as a person might reasonably expect from professional law enforcement personnel.

Respectfully,

**Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Business Associations, and the like**

Name of Employer/Business Assoc: MINISTRY OF ATTORNEY GENERAL, PROVINCE OF BC

Attn: LORI WANAMAKER - HEAD OF BC PUBLIC SERVICE

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivising, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person".

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter"⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections are not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Most vaccines are trialed for at least 5-10 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in the tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399¹⁹. According to Centre for Disease Control and Prevention (CDC), survival chances in the age category of 20-29 with no underlying condition, for males is 99.9997% and for females 99.9998%, and with underlying conditions 99.9037% and 99.9466 respectively²⁰. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

¹⁹ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

²⁰ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

7. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines".

Under the Risk Management plan section of the Summary Basis of Decision²¹, it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)". In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)"²².

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²³. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁴, compounded by several month's delay in uploading the adverse events to the VAERS database²⁵.

On September 17, 2021, VAERS data release for the period December 14, 2020 to September 10, 2021, showed 701,561 adverse events reports following COVID-19 injections, including 14,925 deaths and 91,523 serious injuries. Of that total, 19,827 adverse injury reports were among 12–17-year old's with 19 reported deaths and included 488 reports of myocarditis from the Pfizer jab and 106 reports of blood clotting disorders, again from the Pfizer injection²⁶.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths". He further added, "...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"²⁷.

9. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.

10. **Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use**^{28 29}.

Under the *Crimes Against Humanity and War Crimes Act of Canada*³⁰, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general

²⁹ <https://alethonews.com/2021/05/26/five-recently-published-randomized-controlled-trials-confirm-major-statistically-significant-benefits-of-ivermectin-against-covid-19/>

³⁰ <https://laws-lois.justice.gc.ca/eng/acts/c-45.9/page-1.html>

principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada³¹, a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³², it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the Canadian Criminal Code,³³ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁴ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁵

Vaccination is voluntary in Canada³⁶. Even if the government attempts to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose ANY vaccine including the COVID-19 experimental injections on employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁷ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁸ (2005)
- **Nuremberg Code**³⁹ (1947)
- **Helsinki Declaration**⁴⁰ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, “both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable.”⁴¹

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴². For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to take the ANY vaccine including the COVID-19 experimental injection.

**Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Business Associations, and the like**

Name of Employer/Business Assoc: PSSG / BC Corrections

Attn: Matthew Waters

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivising, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person".

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter"⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections are not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Most vaccines are trialed for at least 5-10 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in the tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399¹⁹. According to Centre for Disease Control and Prevention (CDC), survival chances in the age category of 20-29 with no underlying condition, for males is 99.9997% and for females 99.9998%, and with underlying conditions 99.9037% and 99.9466 respectively²⁰. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

¹⁹ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

²⁰ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

7. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines".

Under the Risk Management plan section of the Summary Basis of Decision²¹, it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)". In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)"²².

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²³. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁴, compounded by several month's delay in uploading the adverse events to the VAERS database²⁵.

On September 17, 2021, VAERS data release for the period December 14, 2020 to September 10, 2021, showed 701,561 adverse events reports following COVID-19 injections, including 14,925 deaths and 91,523 serious injuries. Of that total, 19,827 adverse injury reports were among 12–17-year old's with 19 reported deaths and included 488 reports of myocarditis from the Pfizer jab and 106 reports of blood clotting disorders, again from the Pfizer injection²⁶.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths". He further added, "...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"²⁷.

9. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.

10. **Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{28 29}.**

Under the *Crimes Against Humanity and War Crimes Act of Canada*³⁰, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general

³⁰ <https://laws-lois.justice.gc.ca/eng/acts/c-45.9/page-1.html>

principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada³¹, a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³², it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the Canadian Criminal Code,³³ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁴ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁵

Vaccination is voluntary in Canada³⁶. Even if the government attempts to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose ANY vaccine including the COVID-19 experimental injections on employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms³⁷ (1982) Section 2a, 2b, 7, 8, 9, 15.**
- **Universal Declaration on Bioethics and Human Rights³⁸ (2005)**
- **Nuremberg Code³⁹ (1947)**
- **Helsinki Declaration⁴⁰ (1964, Revised 2013) Article 25, 26**

According to top constitutional lawyer, Rocco Galati, “both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable.”⁴¹

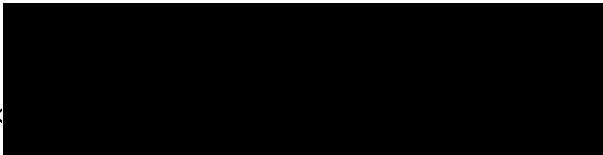

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴². For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to take the ANY vaccine including the COVID-19 experimental injection.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399¹⁹. According to Centre for Disease Control and Prevention (CDC), survival chances in the age category of 20-29 with no underlying condition, for males is 99.9997% and for females 99.9998%, and with underlying conditions 99.9037% and 99.9466 respectively²⁰. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

¹⁹ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

²⁰ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

7. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines".

Under the Risk Management plan section of the Summary Basis of Decision²¹, it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)". In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)"²².

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²³. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁴, compounded by several month's delay in uploading the adverse events to the VAERS database²⁵.

On September 17, 2021, VAERS data release for the period December 14, 2020 to September 10, 2021, showed 701,561 adverse events reports following COVID-19 injections, including 14,925 deaths and 91,523 serious injuries. Of that total, 19,827 adverse injury reports were among 12–17-year old's with 19 reported deaths and included 488 reports of myocarditis from the Pfizer jab and 106 reports of blood clotting disorders, again from the Pfizer injection²⁶.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths". He further added, "...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"²⁷.

9. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.
10. **Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{28 29}.**

Under the *Crimes Against Humanity and War Crimes Act of Canada*³⁰, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general

²⁸ <https://www.washingtonexaminer.com/news/study-finds-84-fewer-hospitalizations-for-patients-treated-with-controversial-drug-hydroxychloroquine>

²⁹ <https://alethonews.com/2021/05/26/five-recently-published-randomized-controlled-trials-confirm-major-statistically-significant-benefits-of-ivermectin-against-covid-19/>

³⁰ <https://laws-lois.justice.gc.ca/eng/acts/c-45.9/page-1.html>

principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, is an accessory after the fact, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada³¹, a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³², it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the Canadian Criminal Code,³³ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁴ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁵

Vaccination is voluntary in Canada³⁶. Even if the government attempts to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose ANY vaccine including the COVID-19 experimental injections on employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁷ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁸ (2005)
- **Nuremberg Code**³⁹ (1947)
- **Helsinki Declaration**⁴⁰ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, "both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable."⁴¹

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴². For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to take the ANY vaccine including the COVID-19 experimental injection.

Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Union Executives, Business Associations, and the like

Name of Employer/Union/Assoc: BC Provincial Government / BCGEU

Attn: Insp. Cantelon / Stephanie Smith

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practising medicine by prescribing, recommending, and/or using coercion to insist employees submit to the experimental medical treatment for Covid-19, namely being injected with one of the experimental gene therapies commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency." There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season.¹

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronavirus². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person."

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life science scientists has detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable.⁵ On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer, Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter." ⁹On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross examination in a trial before the court of Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses.¹¹

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injection is not required or recommended.

1. The Nuremberg Code,¹² to which Canada is a signatory, states that it is essential before performing medical experiments on human beings, there is voluntary informed consent. It also confirms, a person involved should have legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experimental subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment;
2. All the treatments being marketed as COVID-19 “vaccines”, are still in Phase III clinical trials until 2023,¹³ and hence, qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and are further unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy;
3. None of these treatments have been fully approved; only granted emergency use authorization by the FDA, which Health Canada,^{14 15 16} is using as the basis for approval under the interim-order, therefore, fully informed consent is not possible;
4. Most vaccines are trialed for at least 5-10 years,¹⁷ and COVID-19 treatments have been in trials for one year;
5. No other coronavirus vaccine (i.e., MERS, SARS-1) has been approved for market, due to antibody-dependent enhancement, resulting in severe illness and deaths in animal models;¹⁸
6. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including, but not limited to death, blood clots, infertility, miscarriages, Bell’s Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁹, and antibody dependent enhancement leading to death; this includes children ages 12-17 years old.²⁰

Dr. Byram Bridle, a pro-vaccine Associate Professor on Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study²¹ on COVID-19 shots. The added Spike Protein to the “vaccine” gets into the blood, circulates through the blood in individuals over several days post-vaccination, it accumulates in the tissues such as the spleen, bone marrow, the liver, the adrenal glands, testes, and of great concern, it accumulates high concentrations into the ovaries. Dr. Bridle notes that they “have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation.” The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc. There is a high concentration of the Spike Protein getting into breast milk and reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood;

7. Minors are at nearly zero percent risk of contracting or transmitting this respiratory illness and are, instead, buffers which help others build their immune system. The overall survival rate of minors is 99.997%.²² In spite of these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death;
8. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines."

Under the Risk Management plan section of the Summary Basis of Decision,²³ it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)." In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including The World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)²⁴,"

9. As reported in the United States to the Vaccine Adverse Events Reporting System (VAERS), there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²⁵.

It is further reported that only one percent of vaccine injuries are reported to VAERS,²⁶ compounded by several months delay in uploading the adverse events to the VAERS database²⁷.

On May 21, 2021, VAERS data release (in the USA alone) showed 262,521 reports of adverse events following COVID-19 injections, including 4,406 deaths and 21,537 serious injuries, between December 14, 2020, and May 21, 2021, and that adverse injury reports among 12-17-year old's more than tripled in one week²⁸.

Dr. McCullough, a highly cited Covid doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths." He further added, "...a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market²⁹,"

10. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, hence, many adverse events are going unreported;
11. **Safe and effective treatments and preventive measures exist for COVID-19, apart from the experimental shots, yet the government is prohibiting their use.**^{30 31}

31 <https://alethoneews.com/2021/05/26/five-recently-published-randomized-controlled-trials-confirm-major-statistically-significant-benefits-of-ivermectin-against-covid-19/>

Under the *Crimes Against Humanity and War Crimes Act of Canada*³², a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, is **an accessory after the fact**, in relation to, or councils in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada,³³ a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

It is a further violation of the Canadian Criminal Code,³⁴ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁵ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁶

Vaccination is voluntary in Canada. The federal and provincial governments made it clear that getting the COVID-19

32 <https://laws-lois.justice.gc.ca/eng/acts/c-45.9/page-1.html>

33 <https://laws-lois.justice.gc.ca/eng/acts/c-46/page-57.html#docCont>

34 <https://laws-lois.justice.gc.ca/eng/acts/c-46/page-51.html#docCont>

35 <https://scc-csc.lexum.com/scc-csc/scc-csc/en/item/2553/index.do>

36 <https://www.canlii.org/en/ca/scc/doc/2013/2013scc30/2013scc30.html?resultIndex=1>

injections would not be mandatory. Even if they do attempt to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose this experimental medical treatment upon their employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁷ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁸ (2005)
- **Nuremberg Code**³⁹ (1947)
- **Helsinki Declaration**⁴⁰ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, “both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable.”⁴¹

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴². For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

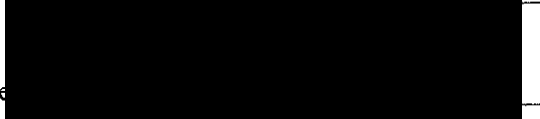

In conclusion, administration of vaccines is defined as a “medical procedure”. In what other medical context could non-doctors and non-pharmacists prescribe, promote and help distribute pharmaceutical drugs? This is unauthorized practice of medicine.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to participate in the COVID-19 experimental treatments.

**Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Business Associations, and the like**

Name of Employer/Business Assoc: Ministry of Citizen's Services

Attn: Gina Powar

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivising, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person".

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter"⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections are not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Most vaccines are trialed for at least 5-10 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in the tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399¹⁹. According to Centre for Disease Control and Prevention (CDC), survival chances in the age category of 20-29 with no underlying condition, for males is 99.9997% and for females 99.9998%, and with underlying conditions 99.9037% and 99.9466 respectively²⁰. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

¹⁹ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

²⁰ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

7. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines".

Under the Risk Management plan section of the Summary Basis of Decision²¹, it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)". In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)"²².

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²³. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁴, compounded by several month's delay in uploading the adverse events to the VAERS database²⁵.

On September 17, 2021, VAERS data release for the period December 14, 2020 to September 10, 2021, showed 701,561 adverse events reports following COVID-19 injections, including 14,925 deaths and 91,523 serious injuries. Of that total, 19,827 adverse injury reports were among 12–17-year old's with 19 reported deaths and included 488 reports of myocarditis from the Pfizer jab and 106 reports of blood clotting disorders, again from the Pfizer injection²⁶.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths". He further added, "...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"²⁷.

9. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.
10. **Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{28 29}.**

Under the *Crimes Against Humanity and War Crimes Act of Canada*³⁰, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general

³⁰ <https://laws-lois.justice.gc.ca/eng/acts/c-45.9/page-1.html>

principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada³¹, a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³², it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the Canadian Criminal Code,³³ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁴ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁵

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practising medicine by prescribing, recommending, and/or using coercion to insist employees submit to the experimental medical treatment for Covid-19, namely being injected with one of the experimental gene therapies commonly referred to as a “vaccine”.

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency." There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season.¹

The purported increase in “cases” is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronavirus². Mullis warns that, “the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person.”

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life science scientists has detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable.⁵ On December 14, 2020, the WHO admitted the PCR Test has a ‘problem’ at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer, Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, “the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between “dead” matter and living matter.”⁹ On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba’s Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross examination in a trial before the court of Queen’s Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses.¹¹

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injection is not required or recommended.

1. The Nuremberg Code,¹² to which Canada is a signatory, states that it is essential before performing medical experiments on human beings, there is voluntary informed consent. It also confirms, a person involved should have legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experimental subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment;
2. All the treatments being marketed as COVID-19 “vaccines”, are still in Phase III clinical trials until 2023,¹³ and hence, qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and are further unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy;
3. None of these treatments have been fully approved; only granted emergency use authorization by the FDA, which Health Canada,^{14 15 16} is using as the basis for approval under the interim-order, therefore, fully informed consent is not possible;
4. Most vaccines are trialed for at least 5-10 years,¹⁷ and COVID-19 treatments have been in trials for one year;
5. No other coronavirus vaccine (i.e., MERS, SARS-1) has been approved for market, due to antibody-dependent enhancement, resulting in severe illness and deaths in animal models;¹⁸
6. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including, but not limited to death, blood clots, infertility, miscarriages, Bell’s Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁹, and antibody dependent enhancement leading to death; this includes children ages 12-17 years old.²⁰

Dr. Byram Bridle, a pro-vaccine Associate Professor on Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study²¹ on COVID-19 shots. The added Spike Protein to the “vaccine” gets into the blood, circulates through the blood in individuals over several days post-vaccination, it accumulates in the tissues such as the spleen, bone marrow, the liver, the adrenal glands, testes, and of great concern, it accumulates high concentrations into the ovaries. Dr. Bridle notes that they “have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation.” The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc. There is a high concentration of the Spike Protein getting into breast milk and reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood;

21 <https://omny.fm/shows/on-point-with-alex-pierson/new-peer-reviewed-study-on-covid-19-vaccines-sugg>

7. Minors are at nearly zero percent risk of contracting or transmitting this respiratory illness and are, instead, buffers which help others build their immune system. The overall survival rate of minors is 99.997%.²² In spite of these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death;
8. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: “use in paediatric (age 0-18)”, “use in pregnant and breastfeeding women”, “long-term safety”, “long-term efficacy” including “real-world use”, “safety and immunogenicity in subjects with immune-suppression”, and concomitant administration of non-COVID vaccines.”

Under the Risk Management plan section of the Summary Basis of Decision,²³ it includes a statement based on clinical and non-clinical studies that “one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease).” In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, “the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including The World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)²⁴,”

9. As reported in the United States to the Vaccine Adverse Events Reporting System (VAERS), there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²⁵.

It is further reported that only one percent of vaccine injuries are reported to VAERS,²⁶ compounded by several months delay in uploading the adverse events to the VAERS database²⁷.

On May 21, 2021, VAERS data release (in the USA alone) showed 262,521 reports of adverse events following COVID-19 injections, including 4,406 deaths and 21,537 serious injuries, between December 14, 2020, and May 21, 2021, and that adverse injury reports among 12-17-year old's more than tripled in one week²⁸.

Dr. McCullough, a highly cited Covid doctor, came to the stunning conclusion that the government was “...scrubbing unprecedented numbers of injection-related-deaths.” He further added, “...a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market²⁹,”

10. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, hence, many adverse events are going unreported;
11. **Safe and effective treatments and preventive measures exist for COVID-19, apart from the experimental shots, yet the government is prohibiting their use.**^{30 31}

31 <https://alethonews.com/2021/05/26/five-recently-published-randomized-controlled-trials-confirm-major-statistically-significant-benefits-of-ivermectin-against-covid-19/>

Under the *Crimes Against Humanity and War Crimes Act of Canada*³², a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada,³³ a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

It is a further violation of the Canadian Criminal Code,³⁴ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁵ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. *Hopp* also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁶

Vaccination is voluntary in Canada. The federal and provincial governments made it clear that getting the COVID-19

32 <https://laws-lois.justice.gc.ca/eng/acts/c-45.9/page-1.html>

33 <https://laws-lois.justice.gc.ca/eng/acts/c-46/page-57.html#docCont>

34 <https://laws-lois.justice.gc.ca/eng/acts/c-46/page-51.html#docCont>

35 <https://scc-csc.lexum.com/scc-csc/scc-csc/en/item/2553/index.do>

36 <https://www.canlii.org/en/ca/scc/doc/2013/2013scc30/2013scc30.html?resultIndex=1>

injections would not be mandatory. Even if they do attempt to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose this experimental medical treatment upon their employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁷ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁸ (2005)
- **Nuremberg Code**³⁹ (1947)
- **Helsinki Declaration**⁴⁰ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, “both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable.”⁴¹

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴². For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

In conclusion, administration of vaccines is defined as a “ medical procedure”. In what other medical context could non-doctors and non-pharmacists prescribe, promote and help distribute pharmaceutical drugs? This is unauthorized practice of medicine.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to participate in the COVID-19 experimental treatments.

Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Business Associations, and the like

Name of Employer/Business Assoc: PROVINCE OF BRITISH COLUMBIA

Attn: TONJA JOYCE

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivising, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person".

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter"⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections are not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Most vaccines are trialed for at least 5-10 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in the tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399¹⁹. According to Centre for Disease Control and Prevention (CDC), survival chances in the age category of 20-29 with no underlying condition, for males is 99.9997% and for females 99.9998%, and with underlying conditions 99.9037% and 99.9466 respectively²⁰. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

²⁰ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

7. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: “use in paediatric (age 0-18)”, “use in pregnant and breastfeeding women”, “long-term safety”, “long-term efficacy” including “real-world use”, “safety and immunogenicity in subjects with immune-suppression”, and concomitant administration of non-COVID vaccines”.

Under the Risk Management plan section of the Summary Basis of Decision²¹, it includes a statement based on clinical and non-clinical studies that “one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)”. In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, “the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)”²².

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²³. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁴, compounded by several month’s delay in uploading the adverse events to the VAERS database²⁵.

On September 17, 2021, VAERS data release for the period December 14, 2020 to September 10, 2021, showed 701,561 adverse events reports following COVID-19 injections, including 14,925 deaths and 91,523 serious injuries. Of that total, 19,827 adverse injury reports were among 12–17-year old’s with 19 reported deaths and included 488 reports of myocarditis from the Pfizer jab and 106 reports of blood clotting disorders, again from the Pfizer injection²⁶.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was “...scrubbing unprecedented numbers of injection-related-deaths”. He further added, “...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it’s pulled off the market²⁷”.

9. Canada’s Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.
10. **Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{28 29}.**

Under the *Crimes Against Humanity and War Crimes Act of Canada*³⁰, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general

principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada³¹, a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³², it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the Canadian Criminal Code,³³ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁴ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁵

Vaccination is voluntary in Canada³⁶. Even if the government attempts to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose ANY vaccine including the COVID-19 experimental injections on employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁷ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁸ (2005)
- **Nuremberg Code**³⁹ (1947)
- **Helsinki Declaration**⁴⁰ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, “both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable.”⁴¹

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴². For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to take the ANY vaccine including the COVID-19 experimental injection.

Coastal Fire Centre

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practicing medicine by prescribing, recommending, facilitating, advertising, mandating, incentivising, and using coercion to insist employees, submit to ANY vaccine including the experimental gene therapy injections for COVID-19, commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency". There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season¹.

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronaviruses². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person".

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life-science scientists has also detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable⁵. On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter"⁹. On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross-examination in a trial before the court of the Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses¹¹.

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injections are not required or recommended.

Whereas:

1. The Nuremberg Code¹², to which Canada is a signatory, states that voluntary informed consent is essential before performing medical experiments on human beings. It also confirms that the person involved should have the legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved so as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experiment's subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment.
2. The treatments being marketed as COVID-19 "vaccines", are still in Phase III clinical trials until 2023¹³, and hence qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and many are unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy.
3. Most vaccines are trialed for at least 5-10 years¹⁴. COVID-19 injections have only been in trials for just over a year so there is no long-term safety data available and therefore fully informed consent is not possible.
4. No other coronavirus vaccine (i.e., MERS, SARS-1) has ever been approved for market due to antibody-dependent enhancement, which results in severe illness and death in animal models¹⁵.
5. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including but not limited to, death, blood clots, infertility, miscarriages, Bell's Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁶, and antibody-dependent enhancement leading to death; this includes in children ages 12-17 years old¹⁷.

Dr. Byram Bridle, a pro-vaccine Associate Professor of Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study¹⁸ on COVID-19 shots. The Spike Protein added to the "vaccine" gets into the blood and circulates throughout the individuals over several days post-vaccination. It then accumulates in the tissues such as the spleen, bone marrow, liver, adrenal glands, testes, and of great concern, it accumulates in high concentrations in the ovaries. Dr. Bridle notes that they "have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation". The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc.

There is also a high concentration of the Spike Protein getting into breast milk, and subsequent reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood.

6. People under the age of 30 are at a very low risk of contracting or transmitting this respiratory illness. According to the statistical expert David Spiegelhalter of the University of Cambridge and Office of National Statistics (ONS) of the United Kingdom, risk of death from COVID for the age group between 15 and 24 is 1 in 218,399¹⁹. According to Centre for Disease Control and Prevention (CDC), survival chances in the age category of 20-29 with no underlying condition, for males is 99.9997% and for females 99.9998%, and with underlying conditions 99.9037% and 99.9466 respectively²⁰. Despite these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death.

¹⁹ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

²⁰ <https://action4canada.com/wp-content/uploads/Summary-Basis-of-Decision-COVID-19-Vaccine-Moderna-Health-Canada.pdf>

7. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines".

Under the Risk Management plan section of the Summary Basis of Decision²¹, it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)". In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including the World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)"²².

8. As reported to the Vaccine Adverse Events Reporting System (VAERS) in the United States, there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²³. It is further reported that only one percent of vaccine injuries are reported to VAERS²⁴, compounded by several month's delay in uploading the adverse events to the VAERS database²⁵.

On September 17, 2021, VAERS data release for the period December 14, 2020 to September 10, 2021, showed 701,561 adverse events reports following COVID-19 injections, including 14,925 deaths and 91,523 serious injuries. Of that total, 19,827 adverse injury reports were among 12–17-year old's with 19 reported deaths and included 488 reports of myocarditis from the Pfizer jab and 106 reports of blood clotting disorders, again from the Pfizer injection²⁶.

Dr. McCullough, a highly cited COVID doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths". He further added, "...with a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"²⁷.

9. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, and is extremely time-consuming for physicians to use hence, many adverse events are going unreported there.
10. **Safe and effective treatments and preventive measures already exist for COVID-19 yet the government is prohibiting their use^{28 29}.**

Under the *Crimes Against Humanity and War Crimes Act of Canada*³⁰, a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general

principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, **is an accessory after the fact**, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada³¹, a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

Based on the *Genetic Non-Discrimination Act, Bill S-201*³², it is an indictable offence to force anyone to take an DNA/RNA test or deny any service, employment, or education opportunity to anyone who refuses to take such a test. The punishment is a fine not exceeding \$1,000,000 or imprisonment for a term not exceeding five years, or both.

It is a further violation of the Canadian Criminal Code,³³ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁴ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁵

Vaccine Notice of Liability
Employers (Health Care, Federal, Private and Public)
Union Executives, Business Associations, and the like

Name of Employer/Union/Assoc: B.C. GOVERNMENT

Attn: PERRY THERRIEN

Re: COVID-19 injections recommended or administered to employees

This is an official and personal Notice of Liability.

You are unlawfully practising medicine by prescribing, recommending, and/or using coercion to insist employees submit to the experimental medical treatment for Covid-19, namely being injected with one of the experimental gene therapies commonly referred to as a "vaccine".

To begin with, the emergency measures are based on the claim that we are experiencing a "public health emergency." There is no evidence to substantiate this claim. In fact, the evidence indicates that we are experiencing a rate of infection consistent with a normal influenza season.¹

The purported increase in "cases" is a direct consequence of increased testing through the inappropriate use of the PCR instrument to diagnose so-called COVID-19. It has been well established that the PCR test was never designed or intended as a diagnostic tool and is not an acceptable instrument to measure this so-called pandemic. Its inventor, Kary Mullis, has clearly indicated that the PCR testing device was never created to test for coronavirus². Mullis warns that, "the PCR Test can be used to find almost anything, in anybody. If you can amplify one single molecule, then you can find it because that molecule is nearly in every single person."

In light of this warning, the current PCR test utilization, set at higher amplifications, is producing up to 97% false positives³. Therefore, any imposed emergency measures that are based on PCR testing are unwarranted, unscientific, and quite possibly fraudulent. An international consortium of life science scientists has detected 10 major scientific flaws at the molecular and methodological level in a 3-peer review of the RTPCR test to detect SARS-CoV-2⁴.

In November 2020, a Portuguese court ruled that PCR tests are unreliable.⁵ On December 14, 2020, the WHO admitted the PCR Test has a 'problem' at high amplifications as it detects dead cells from old viruses, giving a false positive⁶. Feb 16, 2021, BC Health Officer, Bonnie Henry, admitted PCR tests are unreliable⁷. On April 8, 2021, the Austrian court ruled the PCR was unsuited for COVID testing⁸. On April 8, 2021, a German Court ruled against PCR testing stating, "the test cannot provide any information on whether a person is infected with an active pathogen or not, because the test cannot distinguish between "dead" matter and living matter."⁹ On May 8, 2021, the Swedish Public Health Agency stopped PCR Testing for the same reason¹⁰. On May 10th, 2021, Manitoba's Chief Microbiologist and Laboratory Specialist, Dr. Jared Bullard testified under cross examination in a trial before the court of Queen's Bench in Manitoba, that PCR test results do not verify infectiousness and were never intended to be used to diagnose respiratory illnesses.¹¹

Based on this compelling and factual information, the emergency use of the COVID-19 experimental injection is not required or recommended.

1. The Nuremberg Code,¹² to which Canada is a signatory, states that it is essential before performing medical experiments on human beings, there is voluntary informed consent. It also confirms, a person involved should have legal capacity to give consent, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him/her to make an understanding and enlightened decision. This requires, before the acceptance of an affirmative decision by the experimental subject, that there should be made known to him/her the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonable to be expected; and the effects upon his/her health or person which may possibly come from participation in the experiment;
2. All the treatments being marketed as COVID-19 “vaccines”, are still in Phase III clinical trials until 2023,¹³ and hence, qualify as a medical experiment. People taking these treatments are enrolled as test-subjects and are further unaware that the injections are not actual vaccines as they do not contain a virus but instead an experimental gene therapy;
3. None of these treatments have been fully approved; only granted emergency use authorization by the FDA, which Health Canada,^{14 15 16} is using as the basis for approval under the interim-order, therefore, fully informed consent is not possible;
4. Most vaccines are trialed for at least 5-10 years,¹⁷ and COVID-19 treatments have been in trials for one year;
5. No other coronavirus vaccine (i.e., MERS, SARS-1) has been approved for market, due to antibody-dependent enhancement, resulting in severe illness and deaths in animal models;¹⁸
6. Numerous doctors, scientists, and medical experts are issuing dire warnings about the short and long-term effects of COVID-19 injections, including, but not limited to death, blood clots, infertility, miscarriages, Bell’s Palsy, cancer, inflammatory conditions, autoimmune disease, early-onset dementia, convulsions, anaphylaxis, inflammation of the heart¹⁹, and antibody dependent enhancement leading to death; this includes children ages 12-17 years old.²⁰

Dr. Byram Bridle, a pro-vaccine Associate Professor on Viral Immunology at the University of Guelph, gives a terrifying warning of the harms of the experimental treatments in a new peer reviewed scientifically published research study²¹ on COVID-19 shots. The added Spike Protein to the “vaccine” gets into the blood, circulates through the blood in individuals over several days post-vaccination, it accumulates in the tissues such as the spleen, bone marrow, the liver, the adrenal glands, testes, and of great concern, it accumulates high concentrations into the ovaries. Dr. Bridle notes that they “have known for a long time that the Spike Protein is a pathogenic protein, it is a toxin, and can cause damage if it gets into blood circulation.” The study confirms the combination is causing clotting, neurological damage, bleeding, heart problems, etc. There is a high concentration of the Spike Protein getting into breast milk and reports of suckling infants developing bleeding disorders in the gastrointestinal tract. There are further warnings that this injection will render children infertile, and that people who have been vaccinated should NOT donate blood;

21 <https://omny.fm/shows/on-point-with-alex-pierson/new-peer-reviewed-study-on-covid-19-vaccines-sugg>

7. Minors are at nearly zero percent risk of contracting or transmitting this respiratory illness and are, instead, buffers which help others build their immune system. The overall survival rate of minors is 99.997%.²² In spite of these facts, the government is pushing the experimental treatment with the tragic outcome of a high incidence of injury and death;
8. According to Health Canada's Summary Basis of Decision, updated May 20, 2021, the trials have not proven that the COVID-19 treatments prevent infection or transmission. The Summary also reports that both Moderna and Pfizer identified that there are six areas of missing (limited/no clinical data) information: "use in paediatric (age 0-18)", "use in pregnant and breastfeeding women", "long-term safety", "long-term efficacy" including "real-world use", "safety and immunogenicity in subjects with immune-suppression", and concomitant administration of non-COVID vaccines."

Under the Risk Management plan section of the Summary Basis of Decision,²³ it includes a statement based on clinical and non-clinical studies that "one important potential risk was identified being vaccine-associated enhanced disease, including VAERD (vaccine-associated enhanced respiratory disease)." In other words, the shot increases the risk of disease and side-effects, and weakens immunity toward future SARS related illness.

The report specifically states, "the possibility of vaccine-induced disease enhancement after vaccination against SARS-CoV-2 has been flagged as a potential safety concern that requires particular attention by the scientific community, including The World Health Organization (WHO), the Coalition for Epidemic Preparedness Innovations (CEPI) and the International Coalition of Medicines Regulatory Authorities (ICMRA)"^{24,25}

9. As reported in the United States to the Vaccine Adverse Events Reporting System (VAERS), there have been more deaths from the COVID-19 injections in five months (Dec. 2020 – May 2021) than deaths recorded in the last 23 years from all vaccines combined²⁵.

It is further reported that only one percent of vaccine injuries are reported to VAERS,²⁶ compounded by several months delay in uploading the adverse events to the VAERS database²⁷.

On May 21, 2021, VAERS data release (in the USA alone) showed 262,521 reports of adverse events following COVID-19 injections, including 4,406 deaths and 21,537 serious injuries, between December 14, 2020, and May 21, 2021, and that adverse injury reports among 12-17-year old's more than tripled in one week²⁸.

Dr. McCullough, a highly cited Covid doctor, came to the stunning conclusion that the government was "...scrubbing unprecedented numbers of injection-related-deaths." He further added, "...a typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death. And then at about 50 deaths it's pulled off the market"^{29,30}

10. Canada's Adverse Events Following Immunization (AEFI) is a passive reporting system and is not widely promoted to the public, hence, many adverse events are going unreported;
11. **Safe and effective treatments and preventive measures exist for COVID-19, apart from the experimental shots, yet the government is prohibiting their use.**^{30 31}

Under the *Crimes Against Humanity and War Crimes Act of Canada*³², a crime against humanity means, among other things, murder, any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law, conventional international law, or by virtue of its being criminal according to the general principles of law are recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. The *Act* also confirms that every person who conspires or attempts to commit, is an accessory after the fact, in relation to, or counsels in relation to, a crime against humanity, is guilty of an offence and liable to imprisonment for life.

Under sections 265 and 266 of the Criminal Code of Canada,³³ a person commits an assault when, without the consent of another person, he applies force intentionally to that other person, directly or indirectly. Everyone who commits an assault is guilty of an indictable offence and liable to imprisonment for a term not exceeding five years, or an offence punishable on summary conviction.

It is a further violation of the Canadian Criminal Code,³⁴ to endanger the life of another person. Sections 216, 217, 217.1 and 221.

Duty of persons undertaking acts dangerous to life

Sec. 216: Everyone who undertakes to administer surgical or medical treatment to another person or to do any other lawful act that may endanger the life of another person is, except in cases of necessity, under a legal duty to have and to use reasonable knowledge, skill and care in so doing.

R.S., c. C-34, s. 198

Duty of persons undertaking acts

Sec. 217: Everyone who undertakes to do an act is under a legal duty to do it if an omission to do the act is or may be dangerous to life.

Duty of persons directing work

Sec. 217.1: Everyone who undertakes, or has the authority, to direct how another person does work or performs a task is under a legal duty to take reasonable steps to prevent bodily harm to that person, or any other person, arising from that work or task.

Causing bodily harm by criminal negligence

Sec. 221: Every person who by criminal negligence causes bodily harm to another person is guilty of
(a) an indictable offence and liable to imprisonment for a term of not more than 10 years; or,
(b) an offence punishable on summary conviction.

Domestically, in the seminal decision of *Hopp v Lepp*, [1980] 2 SCR 192,³⁵ the Supreme Court of Canada determined that cases of non-disclosure of risks and medical information fall under the law of negligence. Hopp also clarified the standard of informed consent and held that, even if a certain risk is only a slight possibility which ordinarily would not be disclosed, but which carries serious consequences, such as paralysis or death, the material risk must be revealed to the patient.

The duty of disclosure for informed consent is rooted in an individual's right to bodily integrity and respect for patient autonomy. In other words, a patient has the right to understand the consequences of medical treatment regardless of whether those consequences are deemed improbable, and have determined that, although medical opinion can be divided as to the level of disclosure required, the standard is simple, "A Reasonable Person Would Want to Know the Serious Risks, Even if Remote." *Hopp v Lepp*, supra; *Bryan v Hicks*, 1995 CanLII 172 (BCCA); *British Columbia Women's Hospital Center*, 2013 SCC 30.³⁶

Vaccination is voluntary in Canada. The federal and provincial governments made it clear that getting the COVID-19

35 <https://scc-csc.lexum.com/scc-csc/scc-csc/en/item/2553/index.do>

36 <https://www.canlii.org/en/cn/scc/doc/2013/2013scc30/2013scc30.html?resultIndex=1>

injections would not be mandatory. Even if they do attempt to mandate it, there is no law, nor can there be, as it is a violation of Human Rights, International Agreements, etc. Employers are infringing on human rights and putting themselves personally at risk of a civil lawsuit for damages, and potential imprisonment, by attempting to impose this experimental medical treatment upon their employees. Canadian law has long recognized that individuals have the right to control what happens to their bodies.

The citizens of Canada are protected under the medical and legal ethics of express informed consent, and are entitled to the full protections guaranteed under:

- **Canadian Charter of Rights and Freedoms**³⁷ (1982) Section 2a, 2b, 7, 8, 9, 15.
- **Universal Declaration on Bioethics and Human Rights**³⁸ (2005)
- **Nuremberg Code**³⁹ (1947)
- **Helsinki Declaration**⁴⁰ (1964, Revised 2013) Article 25, 26

According to top constitutional lawyer, Rocco Galati, “both government and private businesses cannot impose mandatory vaccinations...mandatory vaccination in all employment context would be unconstitutional and/or illegal and unenforceable.”⁴¹

There is no legislation that allows an employer to terminate an employee for not getting a COVID-19 shot. If an employer does so, they are inviting a wrongful dismissal claim, as well as a claim for a human rights code violation⁴². For those employees who are influenced, pressured or coerced by their employer to have the COVID-19 shot, and suffer any adverse consequences as a result of the injection, the employer, and its directors, officers, and those in positions carrying out these measures on behalf of the employer, will be opening themselves up to personal civil liability, and potential personal criminal liability, under the Nuremberg Code, the Criminal Code of Canada, and the *Crimes Against Humanity and War Crimes Act of Canada*, all referenced above.

In conclusion, administration of vaccines is defined as a “medical procedure”. In what other medical context could non-doctors and non-pharmacists prescribe, promote and help distribute pharmaceutical drugs? This is unauthorized practice of medicine.

Therefore, I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision not to participate in the COVID-19 experimental treatments.
