LEARN: Impactful Questioning Techniques & Strategies To Disrupt the Narrative & To Hold Your Electoral Candidates to Account

With Special Guests:

Tom Harris - Executive Director of International Climate Science Coalition of Canada ([ICSC-Canada](http://ICSC-Canada.org))

Renee Hunt - Action4Canada [Eye on Calgary](#) Leader

Did you know Calgary's 2050 Climate Strategy is based on the United Nation's Sustainable Development Goals (SDGs). This climate plan is a Trojan horse for ushering in many of the same nefarious concepts as the 15-Minute Cities. This plan was snuck in without the approval of the citizens of Calgary.

Did you sign up for this?

- **Zero emission zones** where vehicles **must pay a fee to enter**
- Repurposed **vehicle lanes to bike lanes** used to enforce compliance to "active mobility"
- Complete streets designed to **dis-incentivize vehicular traffic**
- **Densification of communities** by transitioning to "compact, mixed use neighbourhoods"
- **Billions of tax dollars** used to fund the non-existent "climate emergency"

Let's learn together and be prepared to engage Electoral Candidates for the upcoming Municipal Election on

October 20 2025

Help Action4Canada continue to bring solutions and hope to the nation! Please consider either a one time [gift](#) or becoming a [monthly supporter](#).
