Dear Commissioner McDonald and Superintendent Blackadar.

Much of this could have been prevented.

Every week I continue to receive multiple reports of harm and injury including death due to these experimental injections. Children are now experiencing severe heart problems which are directly related to the jab. Many reports on the harms to pregnant women including miscarriages and the deaths of infants. Our elderly were targeted and their deaths were just written off as due to old age...but I believe they were intentionally murdered. I have testimonies from individuals who worked in the cares home reporting the immediate and obvious increase in deaths after the elderly were jabbed.

- BC man receives compensation for vaccine injury. **"Four hundred people have filed claims with the VISP since the program began in June 2021."** This is only the beginning and a fraction of what is to come.
<https://www.msn.com/en-ca/news/canada/b-c-man-to-receive-compensation-for-vaccine-injury-one-of-the-first-in-canada/ar-AAy8Kpa>

This is 1939 to 1945 all over again.

Commissioner McDonald I alerted you in July of 2020, and onward, that this was a fraudulent pandemic and that the government was advancing a strategic plan to usher in communism. People are being murdered by this injection. This can no longer be brushed off as a conspiracy theory. Too many facts support the charge and countries around the world are fighting the same battle against the global threat of the World Economic Form and its leaders. Many of whom have been strategically placed throughout Canada in positions to assist with the take over of our beloved country. This is a targeted global attack against humanity.

They are not done with us and will be continuing to execute their plan more aggressively in the fall. I am continuing to pursue action in the courts. Those who were complacent and turned a blind eye will also be held to account one day.

You each had the opportunity to speak up and use the power of your position to expose this. And, to the best of my knowledge, you have done nothing.

Dear Superintendent Blackadar,

Please find attached (http://docs.openinfo.gov.bc.ca/Response_Package_HTH-2021-13807.pdf)

evidence supporting my claim that Bonnie Henry knew that the experimental COVID-19 injections were causing harm at the onset of them being administered to the public.

FOI - <https://www2.gov.bc.ca/enSearch/detail?id=7AFDBC16F15F42E289E9F7DDB0F80C40&recorduid=HTH-2021-13807&keyword=13807>

Of interest is the correspondence on [march 25, 2021](#) from Eleni Galanis who reported significant concerns over the AstraZeneca shot and requested a pause.

I was pleading with the RCMP to stop Henry in [April 2021](#) because she was consistently on the news reporting it was safe.

Sean Muldoon and another woman had severe reactions to it in [April 2021](#) which I brought to your attention as well as Commissioner McDonald. You may recall Sean had 6 ft of his intestines removed due to clots and is in bad shape. I don't know who the woman was or how she is doing.

Henry was also saying in [April 2021](#) that it was safe for pregnant woman and infants.

Every day there are growing reports of people, including children, being seriously injured including death, and yet, Henry continues to force the injection on an unsuspecting and trusting public. These are crimes against humanity.

I have made my emails to the RCMP public so that there is history and awareness. The BC RCMP have been complicit to these crimes through your silence and inactivity.

Are you ready and willing to finally do something? How many more children and adults need to die before you do?

Dear Commissioner McDonald and Superintendent Blackadar

Further to my email yesterday (copy included) is updated compelling evidence supporting my consistent warnings and appeals to you both that the experimental injection is knowingly causing devastating harm, including massive fatalities.

The European (EEA and non-EEA countries) database of suspected drug reaction reports is [EudraVigilance](#), verified by the European Medicines Agency (EMA), and they are now reporting 45,316 fatalities, and 4,416,778 injuries following injections of five experimental COVID-19 shots:

- [COVID-19 MRNA VACCINE MODERNA \(CX-024414\)](#)
- [COVID-19 MRNA VACCINE PFIZER-BIONTECH](#)
- [COVID-19 VACCINE ASTRAZENECA \(CHADOX1 NCOV-19\)](#)
- [COVID-19 VACCINE JANSSEN \(AD26.COV2.S\)](#)
- [COVID-19 VACCINE NOVAVAX \(NVX-COV2373\)](#)

From the total of injuries recorded, almost half of them (1,992,940) are serious injuries.

<https://vaccineimpact.com/2022/45316-dead-4416778-injured-following-covid-19-vaccines-in-european-database-of-adverse-reactions-sudden-adult-death-syndrome-sads-is-new-category-to-deny-vaccine-deaths/>

Bonnie Henry, is knowingly and willfully recommending and forcing these experimental injections on the public using extortion, intimidation and threats as well as being in violation of citizen's privately protected medical information.

According to the FOI, Henry was aware of the deadly harms since the onset. Many doctors and citizens called, emailed and wrote letters appealing to Henry to stop but to no avail.

In August of 2021 Action4Canada filed a Statement of Claim providing details of the harms and unlawful activity committed by Bonnie Henry. I personally delivered copies of the Statement of Claim to Superintendent Blackadar and also met with him when I submitted a 25 page affidavit, which included death certificates as further evidence.

I continue to beseech you to finally commence an investigation and ensure that Henry does not have an opportunity to leave the country under any circumstances.

I respectfully request a timely response.

With regards,
Tanya Gaw
