Dear A. Comm McDonald,

As further evidence against the BC government knowingly and fraudulently participating in promoting a pandemic and deceiving the public, I provide the following:

**Breaking News: The biggest fraud in our history is being exposed. Manitoba Chief Microbiologist and Laboratory Specialist: 56% of positive “cases” are not infectious.** The emergency measures are completely reliant on these fraudulent tests. I have reported since a year ago that the increased "cases" were keeping the emergency measures in place and not an increased death rate over previous influenza seasons.

Manitoba has confirmed that it utilizes Ct's (PCR test amplifications) of up to 40, and even 45 in some cases. This indicates “cases” resulting from such tests (above a Ct of 25) are almost certainly not actually infectious.

· Chief Microbiologist and Laboratory Specialist Dr. Jared Bullard is a witness **for** the Manitoba government in this hearing. Questioned under oath on Monday May 10, Dr. Bullard acknowledged that the PCR test has significant limitations. The head of Cadham Provincial Laboratory in Winnipeg, Dr. Bullard admitted that PCR test results do not verify infectiousness, and were never intended to be used to diagnose respiratory illnesses.

· Dr. Bullard testified that PCR tests can be positive for up to 100 days after an exposure to the virus, and that PCR tests do nothing more than confirm the presence of fragments of viral RNA of the target SARS CO-V2 virus in someone's nose. He testified that, while a person with Covid-19 is infectious for a one-to-two week period, non-viable (harmless) viral SARS CO-V2 fragments remain in the nose, and can be detected by a PCR test for up to 100 days after exposure.

· Dr. Bullard testified that the most accurate way to determine whether someone is actually infectious with Covid is to attempt to grow a cell culture in the lab from a patient sample. If a cell culture will not grow the virus in the lab, a patient is likely not infectious. A study from Dr. Bullard and his colleagues found that only 44% of positive PCR test results would actually grow in the lab.

The standard is that if a vaccine has a death rate of over 50 they immediately pull it. Yet Dr. Tam, Bonnie Henry, and all other Canadian Health Officers are refusing to do so.

“A typical new drug at about five deaths, unexplained deaths, we get a black-box warning, your listeners would see it on TV, saying it may cause death,” McCullough said. “And then **at about 50 deaths it's pulled off the market.**”

**Critical Report:** In May a British Columbia man had severe AstraZeneca vaccine induced blood clotting and as a result 6 feet of his small intestines were removed. Another woman in her 40's was also hospitalized due to clotting. Please listen to what Bonnie Henry has to say in her response to this.

· Henry advises that people who have had the first shot of astrazeneca have the option of taking the Pfizer or Moderna as their second shot. This is medical malpractice...there have been NO studies to show what will happen to people by mixing vaccines.

· Henry also stats that, "we have to weigh the risk/benefit." and that the risk is much less with 2 doses.

This is insanity and makes no sense. The **first shot** is causing serious harm to people. This drug must be pulled.

Dear A. Comm. McDonald,

Further to my letter below dated April 18, 2021 I wish to bring to your attention additional information as further evidence that the Health Officer, Bonnie Henry, with the knowledge of Premier John Horgan, are misleading the public causing harm and death.

I request that you read this letter in its entirety and review all of the links and materials to support the previous statement. The vaccines are experimental and causing harm and death, there are life-saving treatments which are not being made available, and the public is intentionally being deceived en masse. From the Prime Minister, down.

According to the Criminal Code these are indictable offences.

Section 219 (1) (a)(b) states that anyone who does anything, or omits to do anything, that is his/her duty to do, "shows wanton or reckless disregard for the lives or safety of other persons."

Section 220 (b) stipulates that anyone causing death to another person is guilty of an indictable offence and liable "to imprisonment for life."

Section 221 (a)(b) "Every person who by criminal negligence causes bodily harm to another person is guilty of an indictable offence and liable to imprisonment for a term of not more than 10 years; or an offence punishable on summary conviction."

On April 22, 2021 Bonnie Henry announced [1750 surgeries would be cancelled](#) due to increased cases of so-called Covid. Within this report Bonnie Henry announced the death rate in BC reached a total of 1550. This number is since the "onset," it is the total number of deaths in "16 months in BC." This is the total number of deaths calculated over TWO influenza seasons. It is unprecedented to add deaths from one influenza season into the next but lets do a calculation using this number just for the heck of it. 1550 deaths...divided by... 5.1 million people = 0.0003% death rate.

This is not a pandemic.

Have you considered the following:

[1,716 people died](#) in 2020 due to illicit drug use — a 74% increase over 2019. Combined with the deaths from 2021, death by illicit drugs as of this date are in excess of 2355, over the past 16 months. It is reported the increased deaths are a direct result of the extreme measures and lockdowns and not death by Covid.

[January 2021](#) - BC records deadliest January to date due to opioid crisis. 165 deaths. To compare, this is a 104 per cent increase over the number of deaths in January last year.

[March 24, 2021](#) - With 329 deaths recorded in the first two months of 2021, B.C. is on pace to surpass last year's grim record of 1,726 lives lost to Illicit drug overdoses. The B.C. Coroners Service says 155 people died in February making it the province's deadliest February on record.

Drug related hospitalizations: In Prince George alone there were 3,583 visits from January to November of 2020, according to the BC Centre for Disease Control (BCCDC). By comparison, six sites in Interior Health received 4,902 visits during the same time frame.

There have been over 2355 deaths and thousands of drug related visits to the emergency in the past 16 months and yet, the media and the government are not fixated on reporting the daily death count and hospitalization on the nightly news. Instead, Bonnie Henry is cancelling surgeries, shutting down restaurants, and prohibiting travel because she claims that there is an increase of 400 people hospitalized due to so-called Covid.

There are overwhelming reports of severe vaccine injuries, including death. The following message from Constitutional lawyer, [Rocco Galati](#), reports the FDA itself will not approve the vaccines and the only reason they are being permitted use is because the emergency measures are in place. Mr. Galati further reveals the future vaccines are experimental and not meant to treat a specific virus based on the testimony of the Prime Minister himself.

Most recently, there are reports of vaccine injury/death happening to non-vaccinated people through transmission. Doctors are calling it a worldwide phenomena wherein non-vaccinated women are passing clots, bleeding heavily, and there is also an alarming increase in miscarriages. In the following video world renown specialists [discuss](#) the excessive vaccine injuries and the reaction of non-vaccinated women effected by the vaccine transmission.

In the following [Pfizer report](#), Pfizer admits they are aware that adverse "transmissions" are occurring between those who have received the Covid shot and those who have not, and that pregnant women are at risk (Section 8.3.5.3) Pfizer reports that the transmission happens through both inhalation and skin contact. Infants are also effected through the breast milk.

Two weeks ago, and prior to my knowledge of this, two women had reached out to me, separately, and shared their personal experience of passing clots and heavy bleeding. They were frightened and concerned. Once the reports started to show up on social media it became evident something else was going on. The mainstream media have been silent. I contacted Dr. Malthouse right away and it was confirmed that the transmission is occurring when exposed to people who have received the Covid shot and that pregnant women are at high risk of miscarriage and should be warned to stay away from them. Parents are also being warned to take their children out of school.

Meanwhile, Bonnie Henry, our provincial Health Officer, who has a duty, and responsibility, to be advised and take action and warn people, is silent and instead is advising pregnant women to get the shot.

On [April 27<sup>th</sup>](#) Bonnie Henry made the following statement, 'I encourage all pregnant women to be immunized.' Henry goes on to say, "there is lots of good data now that reports they are safe and effective in pregnancy and that protective antibodies are transmitted through breast milk to the infant as well." In reality, there are reports of miscarriages and infant death.

AstraZeneca has been pulled in 22 countries due to the extreme risk of clotting. On March 30 Bonnie Henry "assured British Columbians the AstraZeneca vaccine is safe" and accelerated the shot for 55 to 65 year-olds. This came a day after BC suspended the use for people 55 and younger due to the reports of blood clots.

[April 23, 2021](#) - Molecular biologist and toxicologist Dr. Janci Chunn Lindsay, Ph.D., called to immediately halt Covid vaccine production and distribution. Citing fertility, blood-clotting concerns (coagulopathy), and immune escape, Dr. Lindsay explained to the committee the scientific evidence showing that the [coronavirus vaccines](#) are not safe. "There is a credible reason to believe that the Covid vaccines will cross-react with the syncytin and reproductive proteins in sperm, ova, and placenta, leading to impaired fertility and impaired reproductive and gestational outcomes."

[May 2, 2021](#) - Clotting and Covid Vaccine "Science". AstraZeneca/Pfizer - It was well known in advance the risks of AstraZeneca and that it causes clotting.

"If we were to rely on mainstream news and government reports, we might be led to believe that clotting problems with Covid vaccines were entirely unexpected and rare. Yet the first warnings about the Astrazeneca clotting disorder came before the preprint (above) was published, and long before they even started making the current Covid 'vaccines'. Well over a decade before, to be precise."

This is diabolical to say the very least.

On April 30, 2021 [Vaers reported](#) a significant jump in reported deaths and serious injuries within a week. Between Dec. 14, 2020 and April 23, a total of [118,902 total adverse events](#) were reported to VAERS, including [3,544 deaths](#) — an increase of 358 over the previous week — and [12,619 serious injuries](#), up 2,467 since the week prior. The deaths in the U.S. following COVID injections are being referred to as mass murder since the [Pfizer and Moderna mRNA COVID shots](#) were given emergency use authorization (EUA) by the FDA. In the past 4 months there have been more vaccine deaths than in the past 15 years combined.

Dr Mike Yeadon is the former Vice President of Pfizer. He has a 1st class Honours Degree in Biochemistry and Toxicology and a research based PhD in Respiratory Pharmacology. Dr Yeadon states clearly that you do not vaccinate millions of fit and healthy people and that the government is lying. ([Video](#)) ([Lifesite News](#))

[April 22, 2021](#) - A French drug assessment center demanded the removal of all four widely used COVID vaccines. "According to the CTIAP, all of the vaccines were put on the market and actively used on human beings before 'proof of quality for the active substance and the finished product' was produced."

There is an overwhelming amount of evidence available to prove the vaccines are causing harm. In fact, so much so, that [1000 lawyers](#) are commencing action against the CDC, WHO, and Davos group in a case referred to as **The New Nuremberg Trials 2021**.

There is also an overwhelming amount of evidence proving safe treatments have been available since nearly the onset and the Canadian government has prohibited their use. In New York, a lawyer, Ralph Lorigo, has won three [court orders](#) forcing New York hospitals to administer Ivermectin to dying patients.

In July 2020 I provided you with a [report](#) I had written advising that the government was withholding treatments and I have maintained this position throughout all of our correspondence, providing legitimate medical information to support this. I have also maintained that thousands of Canadians lost their lives due to this and the further fallout from the lockdowns have, and are, unnecessarily destroying people's livelihoods, causing death by suicide, drugs overdoses, lack of availability of medical treatments and life-saving surgeries, and perpetuating extreme abuse of our elderly and our children.

One Million people took to the streets of London last week in protest because people around the world know there is no pandemic and that their rights are being violated. What happens in [Europe](#) soon follows in Canada. In fact...it is already here. May 2, 2021 [Hyde Park, On Montreal](#) - 100,000 people showed up last Saturday in peaceful protest (for now). Protests across Canada are growing larger and the government officials who are in on it are using the police to shield their corruption.

Countries threatened by tyrannical leaders, but whom did not fall into it, were countries wherein the police and military sided with the people.

A.Comm. McDonald I will continue to appeal to you to investigate and indict Bonnie Henry and John Horgan for criminal negligence and crimes against humanity.

Please, choose this day whom you will serve.

I again request an appointment to meet with you to discuss further.

Respectively,
