HALAL MEAT

WHAT CANADIANS NEED TO KNOW

Islam is not a race or a religion. It is a violent, totalitarian political-military system masquerading as a religion, employing subversive strategies to destroy democratic institutions and incrementally impose Sharia law as prescribed in the Quran. Islam is the worship of a false god and is fundamentally incompatible with Western Christian civilizations. It threatens their safety and security, as demonstrated by the ongoing worldwide persecution and mass killings of Christians and other non-Muslims. This danger stems from an ideology that has sustained tyrannical and intolerant rule for 1,400 years, with its foundations set out in the Quran and its consequences recorded throughout history. The mandate is explicit in Quran 9:5: *"...kill the unbelievers wherever you find them and capture them and besiege them and sit in wait for them at every place of ambush."*

Halal is openly described by Islamic leaders as a means *"to conquer the world through the halal movement."*

Halal is Sharia Islamic law and part of a multi-trillion-dollar Islamic consumer economy consisting of 7 sectors: food and beverages; pharmaceuticals; cosmetics; fashion; travel; media and recreation; and financial, estimated at US$7.36 trillion in 2023.

Halal food is not a private dietary choice. Although Quran 5:5 explicitly permits Muslims to eat food prepared by Jews and Christians, the industry is being weaponized to advance Islam and impose foreign Sharia law on non-Muslim societies. The resulting system extracts hidden fees from unaware non-Muslim consumers, and a portion reportedly funds terrorism, mosques, and Islamic schools. Canadian Islamic certification organizations linked to the Muslim Brotherhood have been investigated by the RCMP for this reason. Europe and the UK stand as a stark warning of what successive unilateral concessions produce.

Halal Slaughter, Sharia Law & Consumer Action

Halal slaughter is barbaric and inhumane!

Process according to Islamic guidelines:

- A Muslim invokes the name of Allah.
- The animal's throat is slit with a sharp knife

The animal must be fully conscious and aware during the procedure until it bleeds out, often with violent convulsions, which can take up to five minutes.

The European Food Safety Authority states that halal slaughter causes severe pain, fear and distress until death. Multiple European nations have banned it on animal welfare grounds. Canadian slaughter involves stunning the animals first, however the Canadian Food Inspection Agency (CFIA) makes an exception for ritual slaughter. This is an example of creeping Sharia Law and as the Muslim population increases full compliance will be imposed.

Major grocery chains in Canada sell halal meat, often unlabelled, since the CFIA treats halal labelling as voluntary. Costco has shifted almost all its meat to halal without member awareness or consent. Most Canadians have no idea they may be eating meat sacrificed to Allah through inhumane slaughter. This is outrageous! Muslims are 5% of Canada's population. Canadians are the majority and did not consent.

Halal slaughter must be banned!
