Stop Halal Slaughter and Processing

Attn: Slaughterhouses, Processors and Suppliers

Re: Halal meat: Cease and Desist Notice

I am writing to express my formal protest, shared by many Canadians, upon learning that slaughterhouses and meat suppliers, such as yours, are processing animals according to halal ritual guidelines in compliance with Islamic Sharia law. This practice is not only inhumane but also invokes a blessing to a false god, Allah.

Halal is openly described by Islamic leaders as a means
"to conquer the world through the halal movement."[1]

Islam is not a race or religion but a violent, totalitarian, political-military system masquerading as a religion. It uses subversive tactics to destroy democratic institutions, incrementally impose Sharia law, and establish a global caliphate. It is fundamentally incompatible with Western Christian civilizations, threatening our safety and security, as evidenced by 1,400 years of sustained and ongoing tyrannical rule, including the persecution and mass killings of Christians and non-Muslims worldwide. Its principles and consequences are rooted in the Quran, explicitly in verse 9:5 "…*kill the unbelievers wherever you find them and capture them and besiege them and sit in wait for them at every place of ambush*."

DO YOU KNOW:

- Quran 5:5 permits Muslims to eat food prepared by Jews and Christians. Therefore, demanding halal slaughter serves only one purpose: to weaponize the food industry, advance Islam, and impose foreign Sharia law on non-Muslim societies. Halal = Sharia Law.

- The halal certification industry is estimated at US $7.36 trillion in 2023. Hidden fees are extracted from unaware non-Muslim consumers and reportedly help to fund terrorism, mosques, and Islamic schools. Links to the Muslim Brotherhood have been investigated by the RCMP.

- The Canadian government is spending tens of millions of taxpayer dollars to subsidize and expand the halal meat industry. Canadians who never requested or consented to halal end up paying twice: once at the checkout and again through their taxes[2].

- The Canadian Food Inspection Agency (CFIA) treats the labelling of halal products as voluntary, which results in non-Muslims unknowingly consuming ritually and inhumanely slaughtered meat. Costco has shifted nearly all its meat to halal without member awareness or consent.

- The CFIA requires stunning food animals before bleeding but have made an exception for 'ritual' slaughter in response to Muslims lobbying the government[3]. Halal slaughter involves slitting the throat while the animal is conscious, wherein death can take up to five minutes often with violent convulsions. A July 2024 Federal Court decision removed the requirement for checks of unconsciousness, such as rhythmic breathing, the palpebral reflex, and the corneal reflex[4]. Sweden, Norway, Iceland, Denmark, Slovenia, and parts of Belgium mandate stunning, with no religious exemption. Canada should demand no less.

In conclusion, slaughterhouses and meat suppliers providing halal-certified meat products are actively facilitating the infiltration of Islam and their barbaric and inhumane system within the Canadian food supply. Europe and the UK accommodated similar unilateral requests, and today, they are struggling to retain their culture.

Canadian consumers are outraged to learn of the pervasive advancement of the halal meat industry and are willing to boycott all meat facilities that are producing halal meat products. This will affect your bottom line.

Therefore, I demand that you cease and desist from all halal ritual slaughter and the selling of halal meat. Return to traditional methods that involve stunning to render animals unconscious before slaughter and no pre-slaughter blessing to a false god. Muslims are 5% of Canada's population. Canadians are the majority and did not consent. Halal must be banned! If you continue to support the halal industry, I will no longer support you with my purchasing dollars.

Your facility has an opportunity to lead. Please respond in writing. Thank you for your time and consideration.

Sincerely,
