

Wynne Sex-Ed Notice of Liability Follow-up

School District: _____

Name/s: _____

Attention: School Superintendent/Trustees

Question: *What steps are being taken by the School Board to remove and replace Wynne Sex-Ed curriculum, and pornographic/sexually explicit books from all of the schools in your jurisdiction?*

You were served a Wynne Sex-Ed Notice of Liability (NOL) on _____. That NOL informed you of the serious psychological and physical harm being inflicted on children as a result of the Ministry of Education incorporating Wynne Sex-Ed curriculum into every section of learning, including sexual health, into the education system.

To be clear, addressing this matter is not about discrimination against the gay and lesbian or trans community, this is about indoctrination. Parents send their child to school to be educated in reading, writing and arithmetic, not to become social justice political advocates.

The Wynne Sex-Ed curriculum, the LGBTQ books being endorsed and recommended, and the subjugated sexual health classes have opened a portal through which children are being indoctrinated by politically motivated, unscientific ideology. Sexual health classes no longer focus on teaching biology but instead have made it a priority to teach children to question their God-given sexual identity, as either a male or a female.

These resources and programs are resulting in a mass social contagion wherein a shocking number of children are now self-diagnosing gender dysphoria and are being fast-tracked onto drugs for depression, hormone blockers, and government-funded medical transitioning, which is permanently mutilating and sterilizing minors. This can be done without parental consent and if a parent objects, they are threatened with the child being removed from their care.

There are also a startling number of reports wherein LGBTQ activists within the schools, are assisting children in outwardly transitioning and adopting a new name and identity, without the parent's knowledge. Prior to the implementation of Wynne Sex-Ed curriculum, nearly zero percent of minors suffered with gender dysphoria.

These programs are designed to sexualize children at the earliest age possible, by encouraging masturbation and sexual experimentation with the same sex; cultivating porn literacy; as well as providing them with access to highly inappropriate and explicit books and videos on subjects such as incest and rape via online school portals; in order to normalize sexual deviancy. As a result, minors become more vulnerable to abuse as it desensitizes them to high-risk behaviour.

According to the Criminal Code s163.1 and 171.1, it is illegal to sexually exploit children by exposing them to pornographic and/or sexually explicit material or acts. The amendment to the Human Rights Code, to include gender identity and gender expression, does not exonerate school board trustees, superintendents, or educators from being held criminally liable. Nor does the Provincial School Act or Policies offer immunity.

In closing, I ask again, *"What steps are being taken by the School Board to remove and replace the Wynne Sex-Ed curriculum, and pornographic/sexually explicit books from all of the schools in your jurisdiction?"*

Thank you.

How does viewing pornography affect minors?

Pornography is not reality. It creates confusing expectations, attitudes, and beliefs about what to expect in a healthy sexual interaction.

Pornography makes sexual violence seem okay, that being aggressive will get you what you want and that “no” means “yes.”

Pornography reinforces gender stereotypes such as guys call all the shots and girls are meant to be used for a sexual purpose.

Exposure to sexually explicit material may:

- Lead a child to normalize and become desensitized to high-risk behaviour.
- Blur boundaries and increase a child’s risk of victimization.
- Prematurely sexualize a child.
- Interfere with a child’s healthy sexual development.
- Incite a child to experiment with sexually explicit behaviour to make sense of it.
- Shape a child’s expectations in relationships. It portrays people as objects; a thing to be used and not as a person.
- Shape a child’s expectations of physical appearances and certain sexual acts.
- Increase a child’s health risks (i.e. sexually transmitted infections, sexual exploitation, etc.).
- Increase a child’s risk of problematic sexual behaviour against other children in an effort to experiment.
