

# GET THE MASK OFF OUR CHILDREN!

Action4Canada has launched a campaign to help parents get the masks off their children. Go to <https://action4canada.com/parents-for-mask-free-children/> to learn more and print off the pdf "Notice to Schools on student masking". Then simply fill out the form and follow the steps. **Thousands of parents across Canada have had success with this.**

**Masks are not legislated in Canada. It is not law and cannot be made law because it is in violation of a citizen's right to breathe freely.**

Masks are useless in protecting against the spread of an aerosol-size respiratory illness. They also cause respiratory problems and increased anxiety, as well as psychological damage with potential catastrophic impacts on the cognitive development of children.

**Children are at very low risk of severe illness from COVID-19 and do not spread the virus readily to other children, teachers, or to adults in their home.**

**This is child abuse: Get the masks off our children.**

# STUDENTS AND PARENTS VAX WARNING!

The government has now authorized vaccines for ALL minors, including 5-11 year olds, and are implying that students do NOT require parental consent by referencing the Mature Minor Doctrine. However, this doctrine **DOES NOT** apply to vaccinations.

Students are being coerced and manipulated into taking the vax whilst in the care of educators. This is criminal.

It is **critical** that parents do their own research and listen to doctors and other experts from around the world who are sounding the alarm.

**These vaccines are reportedly causing severe and permanent adverse affects, including death.**

13,000% increase of myocarditis risk in male 12-15 year olds after receiving the shot.

The harmful and unnecessary COVID-19 measures including masking and social distancing are also causing increased levels of anxiety, depression and suicide.

**Children ages 0-19 have a COVID-19 survival rate of 99.9976%. This equates to almost zero risk.**

Experimental injections are known to be causing severe harm - this equates to assault and battery.

**According to former Pfizer Executive, Michael Yeadon, children are 50 times more likely to be killed by the COVID-19 shot than they are the virus itself.**

## Take ACTION!

Remove the risk completely by taking your child out of school or sign and send a Notice of Liability to every individual involved in your child's education.

**HERE ARE EIGHT FACTS ON MASKS YOU SHOULD BE AWARE OF:**

**FACT #1** SARS-CoV-2 is an aerosolized virus. There is no evidence that masks are of any utility for preventing infection by either stopping the aerosol particles from coming out, or from going in.

**FACT #2** Lab testing has shown 3M surgical masks can block up to 75% of particles measuring between 0.02 microns and 1 micron while cloth masks block between 30% and 60% of respiratory particles when compared to those wearing medical masks or controls.

**FACT #3** A 2015 study found health care workers wearing cloth masks had a 72% higher rate of laboratory-confirmed respiratory virus infections, when compared to those wearing medical masks or controls.

**FACT #4** In one study published in 2016, scientists found no difference in the infection rates of patients who were undergoing clean surgery, whether the surgical team was masked or unmasked.

**FACT #5** One study found U.S. states with universal mask mandates saw a 2% reduction in growth rate of position COVID-19 tests compared to states that did not mandate masks.

**FACT #6** The effectiveness of cloth masks reduced by 20% after being washed and dried four times. Wearing masks increases the potential for headaches and lowers a surgeon's oxygen level.

**FACT #7** A U.S. Centers for Disease Control and Prevention report revealed that, of the symptomatic adults with COVID-19, 70.6% always wore a mask and still got sick, compared to 7.8% for those who rarely or never wore a mask.

**FACT #8** Children forced to wear masks for long periods could experience mental and psychological repercussions, and at least 17 physical risks are also posed by wearing masks.
