

STUDENTS AND PARENTS

WARNING!

The government has now authorized vaccines for ALL minors, including 5-11 year olds, and are implying that students do NOT require parental consent by referencing the Mature Minor Doctrine. However, this doctrine **DOES NOT** apply to vaccinations.

Students are being coerced and manipulated into taking the vax whilst in the care of educators. This is criminal.

It is **critical** that parents do their own research and listen to doctors and other experts from around the world who are sounding the alarm.

These vaccines are reportedly causing severe and permanent adverse affects, including death.

The US FDA has told parents to not give the vaccine, as it causes myocarditis.

The harmful and unnecessary COVID-19 measures including masking and social distancing are also causing increased levels of anxiety, depression and suicide.

Children ages 0-19 have a COVID-19 survival rate of 99.9976%. This equates to almost zero risk.

Experimental injections are known to be causing severe harm - this equates to assault and battery.

According to former Pfizer Executive, Michael Yeadon, children are 50 times more likely to be killed by the COVID-19 shot than they are the virus itself.

Take ACTION!

Remove the risk completely by taking your child out of school or sign and send a Notice of Liability to every individual involved in your child's education.
